WEATHER INDICATIONS.

U. S. Department of Agriculture.
Weather Bureau.
Toledo, O., March 15, 1892.

The local forecast for to-day is fair, slightly warmer.

For Wednesday—Fair, colder, with a moderate cold wave at night.

Weather Conditions.

The high area in the northwest is still increasing and is now represented by a pressure of 30.9 ins. in Northern Dakota. Cold weather continues throughout the country west of the Mississippi, and slightly warmer weather east of it. Increasing cold weather is reported in the northwest. The temperature at Minnedosa was 26 degrees below zero. The zero temperature line extends eastward through Dakota, Minnesota, Michigan, Ontario and Maine. Snow is falling in the Ohio valley and the Rocky mountain region. Continued cold may be expected at Toledo and vicinity during nearly all of this week. A moderate cold wave will be felt Wednesday night. The highest temperature in Toledo Monday was 27 degrees; the lowest was 13 above. The lowest in the United States was 16 degrees below zero at St. Vincent, Minn.; the highest was 62 degrees at Galveston, Tex.

AMISH PEOPLE AT LAW.

They Break Their Rule and Take a Case From the Church.

Millersburg, O., March 15.—The general rule that has existed among the Amish people for years that all differences among them must be settled in their churches seems to have been broken over for once in this county, where a great many of this class of people reside.

A petition was filed in court to-day by W. F. Hochstetter, as administrator of the estate of Barbara Hershberger, against more than 60 defendants scattered over different states of the union.

It seems that the old Amish lady made a will (which is a rare occurrence among them) and the administrator does not understand its meaning and the prominent members of the church cannot construe it satisfactorily to all concerned, and as there are so many interested in the property this suit was filed to have the court put a construction on the instrument, as a guide for the administrator. The value of the estate is $30,000.

Never in the history of the county have so many of this sect been made parties to a suit, but it is only a friendly contest, but the service of the summons on them will be anything but pleasant.

They oppose war and lawsuits and will have none of either, if it is possible to get out of it. They settle troubles in their churches, but this matter was too complicated for them and it came to court.

A WAR IN GAS RATES AT CELINA.

Celina, O., March 15.—The people of Celina are having an interesting time because of their two rival gas companies. Prices have been cut so low that they will not pay running expenses.

The citizens and business men, nearly all of whom are interested in one company or the other, are arrayed in deadly strife against each other, and fights and quarrels among old neighbors are of daily occurrence.

Landlords endeavor to compel their tenants to patronize the company in which the former is interested, and on refusal must hunt another house. Several occurrences of this kind have happened already.

THE GANO MURDER TRIAL.

Mt. Gilead, O., March 15.—The trial of Gano, for killing his wife, on the 18th of August, 1891, is still in progress with increasing interest, the case having been begun a week ago. The testimony for the state was very damaging.

To-day the interest centered on the prisoner, who was put on the witness stand and occupied it all day.

THE WRECKED ELDER.

London, March 15.—It is feared that the Elder, the German steamship wrecked near Atherfield, Isle of Wight, is a hopeless loss.

A gale is sweeping the coast and heavy seas are breaking over the vessel, sweeping the decks and burying the Elder at times out of sight. All attempts at raising her have ceased for the present.

DEADLY BULLETS,

Poured Into the Bodies of His Employers,

By a Much Respected Tiffin Citizen.

Greatest Sensation Seneca Has Ever Known.

Walter Snyder's Murderous Deed While Insane.

For Twenty-five Years a Trusted Clerk the Failure to be Made a Member of the Firm is Believed to Have Turned His Mind.

Tiffin, O. March 15.—(Special)—Walter A. Snyder, confidential clerk in J. M. Naylor & Co.'s hardware store, shot two of his employers, Ed. T. Naylor and Burton W. Crobaugh, and T. W. Downey, a fellow clerk, and then killed himself.

THE DETAILS.

The Most Startling Tragedy Seneca County Has Ever Known.

Tiffin, O., March 15.—(Special)—"Walter Snyder has shot Ed. Naylor, Burt Crobaugh and Thomas Downey, and killed himself."

Such was the announcement that greeted the people of Tiffin as they approached their places of business this morning.

It is one of the saddest tragedies that has occurred in the city's history.

Walter A. Snyder, aged about forty-five years, unmarried, and one of the most popular men in the city, had attempted the life of Edward T. Naylor and Burton W. Crobaugh, both members of the firm by which he was employed, and also that of Thos. W. Downey, a fellow clerk.

That the man was insane does not admit of a shadow of a doubt.

For nearly 50 years the hardware establishment of John M. Naylor has been one of the city's leading business establishments, and Snyder, Crobaugh and Edward T. Naylor have been employed as clerks for many years.

Last week it was announced that a change had been made in the firm by the admission of Crobaugh and young Naylor, and some comment was made at the time that Snyder was not in the deal.

It has since been learned that Snyder, though with perhaps $20,000, had his money so tied up in real estate that he could not take an interest in the business.

This seemed to have been perfectly satisfactory to him at the time, but later it so preyed upon his mind that he became insane.

He entered the store as usual this morning and found the others already there.

He made a pretense of desiring Crobaugh and Naylor to examine the contents of a box, which he had just received by express, and when they were at his side he shot them both and then turned the revolver on Downey, who had entered to save the lives of the others.

He then turned the revolver on himself with fatal effect.

Crobaugh's wound is supposed to be of a fleshy nature, and it is thought that he will recover.

Naylor was shot twice in the back and side, but may recover.

Downey stopped three bullets, one in his arm, one in his side and the third in the back. His recovery is not considered probable.

All the men engaged in the tragedy stand high in the community, and business in the city is practically suspended, while hundreds of citizens throng the street in front of the store where the bloody work was done.

Snyder was a member of the Forty-ninth regiment during the late war and Naylor was with the gallant Eighth Ohio.

All save Snyder are married and have families.

LATER DETAILS.

Disappointment in Financial Prospects May Have Caused the Tragedy.

Tiffin, O., March 15.—(Special)—It is probable that la grippe had much to do with the unfortunate affair which occurred here this morning.

Snyder had partially recovered from an attack of the malady, but was still suffering from its effects.

In addition to his disappointment in regard to the recent change of the firm, he has been regarded for many years as the sole heir of a wealthy aunt, Mrs. Eva Weiks, of this city, whose plantation at Surrounded Hills, Ark., he has looked after every summer.

He intended departing for that place this afternoon.

Last Friday Mrs. Weiks, who is over 66 years of age, was married, without Snyder's knowledge, to Frederick Zimmerman, of Bloomville, who is in his 73d year.

This was a bitter disappointment to Snyder as it practically deprived him of an estate worth $30,000.

He expressed his disappointment to several friends last night.

It has been learned that he took several drinks of whisky before committing the terrible deed this morning and a line of blue around his neck leads to the belief that he attempted suicide by hanging last night, but failed to accomplish his purpose.

This afternoon all his intended victims are alive, and hopes are entertained that all will recover save Downey, for whose recovery the physicians give but little promise.

He is shot through the head, the arm and another ball lodged in his side.

Crobaugh is worse injured than at first supposed. The ball entered his side and struck a rib, but cannot be located.

Naylor is resting easy, and it is believed will get well.

The scene of the affair is still besieged by the populace and all business has been suspended.

Knots of citizens can be seen gathered here and there about the streets sadly discussing the terrible occurrence of the morning, and messengers are coming from the homes of the injured men every few minutes with tidings of their condition.

The condition of Crobaugh and Downey is extremely critical.

A FATAL SLIP.

A Saloon-Keeper Who Died From a Cut.

Fostoria, O., March 15.—(Special)—The death of Anthony Sharf, found dead in his saloon on Sunday evening, is a peculiar one, inasmuch as it seems to have been wholly accidental. That he bled to death from a cut in his left wrist is certain. It seems he was alone in his place of business engaged in routine work, and to all appearances went behind the counter and with a huge knife attempted to cut himself some bread, preparatory to getting himself a lunch, as, having been ill for some days, he had not been eating well or regularly.

It is thought that while in the act of cutting the bread, the knife slipped, inflicting the wound.

GROUND TO DEATH.

Youngstown, O., March 15.—George W. Miller, of the firm of Miller & Clark, basket manufacturers, after attending to some business here, started to return to his home at Windham, O.

On reaching Leavittsburg he boarded a freight train, and in attempting to jump off at Braceville, struck against a slight embankment, and rolling back under the wheels was ground to death.

Miller was twenty-four years old and unmarried, and a young man of exceptionally good character.

IS THE KAISER DYING?

Suffering From an Incurable Disease.

Believed It Has Affected His Mind.

The Peculiar Action of the German Ruler Is Attributed to His Ailment by the London World.

London, March 15.—The London World asserts that the malady of the kaiser's ear is getting worse, and is attended by frequent paroxysms and excruciating pain.

It is said that the malady is incurable, and that the most serious results may be expected.

The World says that the kaiser's recent extravagances and aberrations are attributed to the affect of the disease on his brain.

The kaiser is said to have ordered the discontinuance of the imperial subscription to London Punch, because it has contained several allusions of a distasteful character to his recent course.

IN THE OIL FIELD.

Interesting Notes Gathered at St. Marys, Ohio.

St. Marys, O., March 15.—(Special)—Operations in the oil field here are at present more active than they have been for some time past, and a large amount of new work is being done.

The Economy Oil company has just completed its No. 1 on the Chas. McKee farm that is good for 200 barrels.

The Ohio Oil company's No. 4 on the Amstrong farm is finished and good for 275 barrels.

Barnes & Neely's No. 2 on the Barrington farm came in as dry as powder. The well was shot and ever since it has been doing 170 barrels.

The Feeder Oil company's No. 4 on the Chas McKee farm is in and doing 150 barrels per day.

EVIDENCE OF HER SHAME

The Will of M. Abeille Made Public.

He Left His Property to Mrs. Deacon's Youngest.

The Action Has Strengthened the Case of Mr. Deacon in the Public Mind to a Great Extent.

Paris, March 15.—The news that M. Abeille has left a will bequeathing his property to the youngest child of Mrs. Deacon has considerably strengthened Mr. Deacon's case in public opinion, as this is considered a virtual acknowledgment of guilt on the part of M. Abeille.

It is a very difficult thing to overthrow a will in France and the general impression that the legacy will hold good, notwithstanding any steps that the relatives of M. Abeille may take in the matter.

Mr. Deacon has claimed that the youngest child was his own, but those who have seen it aver that its appearance fully sustains the provision for its support which M. Abeille saw fit to make.

CAUSED BY DRINK.

Serious Cutting Affray in a Bettsville Saloon.

Tiffin, March 15.—(Special)—Albert Tarman was probably fatally cut in the abdomen last night by John Holzworth in a Bettsville saloon.

Tarman was drunk and assaulted Holzworth, who used his pocket knife with the result above stated.

Holzworth bears a good reputation and has not been arrested, as he acted wholly in self defense.

SCHWATKA'S TRIP

And What He Found in Far Off Alaska.

First of a Series of Interesting Letters,

That Are to Appear Regularly in the Bee.

A Journey up the Tahku Inlet.

A Splendid Discription of the Country Together with Illustrations of the Land to Northward of Us.

Special Correspondence Toledo Bee.

Tahkou River, May 26, 1891.—On May 7, 1891, the Pacific Coast Steamship company's vessel, 'City of Topeka," crossed Dixon Entrance and entered Alaskan waters, leaving behind those of British Columbia.

All these waters, for a stretch of over a thousand miles along the Pacific coast are but deep inlets and channels, huge salt water rivers, so to speak, that, cutting in every direction, make a vast network of islands picturesque in the extreme and not even yet wholly explored.

The most freely navigable of these many channels running parallel with the coast, is called "the inland passage to Alaska," and is yearly becoming more popular with summer tourists seeking rest and recreation here.

One of the peculiar features of this

TAKOU CANOE UNDER SAIL.

southwestern section of Alaska, and one that can only be appreciated by the explorer or hardy frontiersman, is the ease and pleasure with which one can travel the coast waters, only to plunge into the roughest of "roughing it," as soon as these are left, and the Alpine interior essayed.

On board the "Topeka" was the Alaskan expedition that had this prospect ahead of it, the subscriber being in command. One of our main objects was to cover as much unexplored country as possible, in any direction, yet a general plan had been formed to follow my old explorations of 1883 to, or near, the Pelly and Yukon river confluence, and there begin the work into the unknown interior westward and southwestward.

We had occasion to change this plan so as to cover more unexplored country than usual. It came about by discussing a new and unexplored route from Juneau with citizens of that lively metropolis of our distant colony, "the largest city in the largest territory in the largest republic in the world," as they used to patriotically put it.

It was to go over what was called the Tahku trail that led to a large lake in the interior, and by its draining river gain the Yukon, where I joined my old trail of 1883, and could then carry out the program as previously planned.

It is believed an available commercial trail might be opened this way, that, with Juneau as a basis, could be made to supply the Yukon valley even to Bering sea, better than by any known route, while it will be no small feather in the cap of the New York Ledger expedition to be able to do this preliminary pioneering.

This belief was founded on information obtained from the interior Indians when bringing out their furs, and from prospectors who had searched this general line for precious minerals.

It might be, also, that the present Yukon traffic would not pay, while the future might, and it was well to be prepared with the information. The many other reasons for or against this trail can be made clearer as we travel over it later.

When we arrived in Juneau a corresponding interest was soon worked up by those on the steamer, the citizens pledging everything they could to make the enterprise a success, and so we disembarked here.

The first point we touched in Alaska was Tongass. After Tongass, we meet nothing but salmon canneries for a few days, reaching Juneau on the 9th of May, where our freight is disembarked and we continue on, for this metropolis is of enough importance to be touched by the returning steamer, thus making a short round trip.

We wake up next day in Glacier bay, on the first vessel of the season to essay it, as it is only visited in the interest of the summer tourists.

At Sitha we were crowded with passengers of the spring court term at Juneau. There were 10 prisoners, only six of them being murderers, mostly confined to half-breeds and Indians. The naturally resulting conversation disclosed a statement that there had never been a simon-pure lynching, nor a legal execution, in Alaska.

At Wrangell, in early days, a murderous gambler was made chairman of a vigilance committee, the chair was pulled out from under him and he broke this peaceful record—also his neck; but any one familiar with frontier justice knows there is a wide chasm existing between this and lynching. In a somewhat similar action, an Indian murderer performed traction on a rope, to the satisfaction of the vigilance faction and the greater dissatisfaction of the lesser faction.

Killisnoo is very agreeable to the eye but somewhat abominable to the nose, due to flourishing herring fishery and attendent guano factory. The United States marshal attempted to arrest a native here for trying to drown a squaw that government bureau. To Dr. Hayes also fell the photographic work in the mainl as wel, as the topographic or map-making.

I had hoped to get a professional photographer, and felt sure of success when Mr. Landerkin, one from Juneau, made an application for the place. He was caught on the grand jury, having already been sworn in, but we both thought that a mere bagatelle as an obstacle, but the judge and district attorney thought otherwise. Both were willing enough, but there was nothing in the law (the Oregon code prevails here by act of congress "so far as it is practicable") that would allow it. The only excuse whatsoever was one of severe sickness, attested under oath by a physician.

"But suppose a grand juror dies?" I asked the judge.

"I could not excuse him from duty on that ground," he replied, slowly, shaking his head. So Mr. Landerkin remained and Dr. Hayes did double duty. Mark C. Russell was the only other white man in the party as we started, which I organized on the basis of all my previous expeditions, or just as few white men as possible, with natives to do about all the work of transportation, guiding, hunting, etc., etc., with which they are so familiar in their own country.

The Indians were very hilarious, evidently stimulated by the enthusiastic departure given us, and they showed their appreciation by "spurting" ferociously every little while instead of settling down to steady work.

We stopped about 2 o'clock in the afternoon in a pretty little sheltered cove for lunch, and really enjoyed ourselves for a half hour, protected from the beating rain. Robert impressed me with the fact that the tide was then out, and asked me to note that when it was in, not a landing place was to be found anywhere along the shore for probably stretches of many miles.

In a bright green prairie of a few acres in this ceaseless timber tract, and bordering the shore was picturesquely perched a Tahku town of ten houses, Ahk-kwan by name.

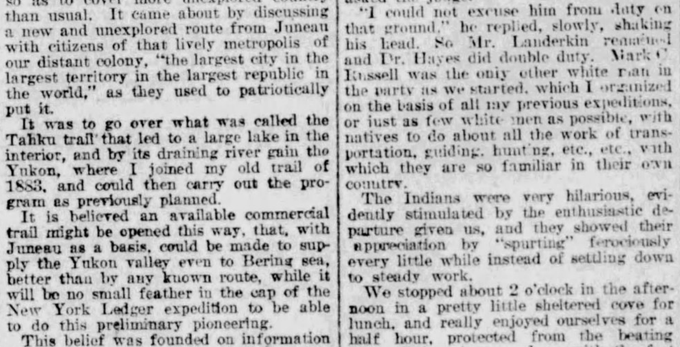
It is not often a graveyard is the most cheerful part of a place, but here the only enlivening thing in a view of dismal green, rendered doubly doleful by the rain, was a bright red flag that fluttered from a high staff at the corner of a grave. I was told it indicated that that particular native had just recently died.

About 4 o'clock we swung around into the Tahku inlet, and our change of course, now allowed us to set sails. Along we bowled, wing and wing, the ice-cakes we had met at the mouth of the inlet, growing larger as we ascended it towards the glacier, until they could well be dignified with the name of icebergs; certainly so, in comparison with those from the Muir glacier that are thus styled.

The Tahku glacier ice is the bluest I have ever seen either in or out of the Arctic or Alpine regions. It was really a deep bluish-black in many places though clear as crystal.

It was quite dark when we got to the mouth of the Tahku river, at a half-completed salmon fishery, the white men sleeping in it and the Indians in the smoke-house, all of us stiff as pokers.

FREDERICK SCHWATKA.



JUNEAU AND DOUGLAS ISLAND.

CRUSHED TO DEATH.

Zanesville, O., March 15.—George Dickerson, a middle-aged unmarried man, was crushed into a shapeless mas at Crabtrees Clay Bank by a cave-in. Two tons of earth fell upon him and death was instantaneous.

KILLED BY THE CARS.

Millersburg, O., March 14.—Albert Galley, son of Fred Galley, of this city, was killed at Mapleton, O., by the cars.

WILL BE A GREAT LEAGUE

Bright Shining Stars in the New Organization.

Campau, "Chip" McGarr, Cunningham, "Si" Sutcliff, Shinnick

And Many Other Ball Players of Note Have Put Their Names to the Contracts Under the New Deal.

Columbus, O., March 15.—(Special)—The Western league magnates in this city are in high glee over the prospects for the season. More than enough players are signed and the contracts continue to pour in. The State Journal says that "one hundred and four contracts, eight more than are necessary to make a full complement of the eight clubs to be organized and allotted in Chicago, are now in the possession of President Williams."

Eighteen stars tumbled into line yesterday, and as many more are likely to arrive before the lists are finally closed.

The base ball talent, seeing that the Western league people meant just what they said, and despairing of the lightning ever striking that salary limit, are now accepting figures by telegraph—the mail is entirely too slow.

The Western league train is about to start, and a regiment of the talent is yet unprovided with tickets and stop-over checks. Hence the boys are falling over each other in their anxiety to sign at figures that a week ago they deemed "highway robbery."

The chances are that when the players' committee gets down to the work of apportioning the men there will be enough material to put the mythical Eastern league on its feet that must be turned out to grass. But 96 men can be used and the surplus must be released.

The arrivals yesterday were first-class, and all the men, or nearly all, are well known to Columbus ball patrons. Here is the roll:

E. E. Sutcliffe (old Si), the popular catcher and outfielder. Last season "Si" was with Omaha and Washington, and led the American association in batting.

Charles Campau, a fielder, in '91, with the Albany team. He was with St. Louis Browns in '90 and is a good all-round man. Campau went with Von der Ahe when Wheelock and Knauss joined Columbus.

Ellsworth Cunningham, the pitcher, for several seasons, with Baltimore. He has often been seen in Columbus.

James Daley, an outfielder and the star of the Lebanon (Pa.) team.

M. H. Shine, a catcher of the Troy club. Pat Powers some time ago wanted him for the New York Giants.

Denny Fitzgerald, a second baseman. When the Brotherhood trouble arose in '90 Fitzgerald played a great second base for Billy Sharsig's Athletics, but he broke his leg and had to retire from the diamond.

Billy Clingman, the Cincinnati short stop, well and favorably known.

George Hogriever, last year in the Kansas City outfield, and an excellent man.

C. S. Abbey, the St. Paul outfielder. He has been one of the strong men in the Western association for the past three years.

W. W. Andus, outfielder, in '91 with the Portland (Me.) club. He was a star in the old International league.

E. B. Lytle, an outfielder, of the Portland (Me.) team, who comes highly recommended.

D. J. Lally, an outfielder, of the Pittsburg league club last year, and a terrible hitter.

J. A. Newell, third base, with Pittsburg in '91, who was to go to St. Louis this year before Pickney was signed by Von der Ahe.

Jimmy McGarr ("Chippy"), the third baseman or short stop of Denver team. Every lover of ball knows "Chippy" McGarr.

Tim Shinnick, second baseman of Louisville American association team.

Frank G. Ward, the heavy-hitting second baseman of Spokane team.

Dave E. Rowe, outfielder and playing manager of the Omaha team.

Pat Rollins, catcher. He is a good man and had been signed by Washington league people to be used in case big Milligan had refused to sign.

Notes.

Von der Ahe wants Easton.

Cleveland has gone to Hot Springs.

Kennedy has signed with Brooklyn.

Toledo will play in Cincinnati March 31.

Gumbert is improving from the blow he received on the head.

All the clubs in the Western will play Sunday games except Indianapolis.

Messrs. Gunnells and McGregor will represent Toledo in the Western league meeting in Chicago Wednesday and Thursday.

The Toledo club backers will undoubtedly institute an "Amateur Day," on this occasion all uniformed amateur clubs are admitted free to grounds, for which they give a parade preceding the game.

UNDER PECULIAR CIRCUMSTANCES.

An Old Woman of Celina Found Dead in Her Home.

Celina, O., March 15.—A startling discovery was made at Ft. Recovery, this county, last evening. The badly decomposed body of Mrs. S. Throp was found at her home in that village. She was last seen Monday, a week ago, the neighbors thinking that she had gone to Portland, Ind., to visit her son, as she had been talking of some time.

She drew her pension money on Monday and nothing was suspicioned until yesterday afternoon. The house was locked up. An entrance was effected through a window and the startling discovery came to light. She had been dead almost a week from all appearances.

She was well respected and has been a resident of Ft. Recovery for over 30 years. She was a widow, aged 76, and had lived alone for several years.

DEFIANCE POLITICIANS.

Republicans and People's Party Nominate Tickets.

Defiance, March 15.—(Special)—The republican councilmanic ticket nominated last night in this city is as follows:

First ward—William Geiger.
Second—George Dieus.
Third—Joseph Ralston.
Fourth—Henry Young.
Assessors: First ward—George M. Hartman.
Second—Martin Howard.
Third—J. I. Miller.
Fourth—Edward Groweg.

People's Party.

The people's party named the following ticket:

Councilmen: First ward—W. J. Warncke; assessor, E. F. Weeks.
Second ward—Councilman, E. Allis; assessor, Jas. Bacon.
Third ward—Councilman, Fred Geiger; assessor, P. Plecer.
Fourth ward—Councilman, H. W. Kirchner; assessor, F. I. Stout.

The full democratic ticket will be elected.

VISCOUNT HAMPDEN DEAD.

London, March 15.—Sir Henry Bouverie William Brand, viscount Hampden, is dead at Pau. He was born in 1814, was a member of parliament, and was in the cabinet from 1855 to 1858, and speaker of the house of commons from 1872 to 1884.

He was a lineal descendant of Sir John Hampden, the famous patriot, and also of the Essex family, who came with William the Conqueror.

A RAGING STORM

Overtook the Funeral of Congressman Kendall.

A Terrible Ride Over Kentucky Mountains.

Occupants of the Carriages Frost Bitten,

And the Remains Roughly Handled.

The Committee Tied a Rope to the Hearse and Marched on the Weather Side to Keep it From Going Over the Precipice.

New York, March 15.—A Washington special to the Herald says: Senators Warren, of Wyoming, and Pasco, of Florida, Representatives Belknap, Paynter, of Kentucky, Gillespie, of Pennsylvania, and Long, of Texas, composing the congressional committee appointed by the two houses to attend the funeral of the late Representative Kendall, of Kentucky, together with Mrs. Kendall and her eldest sister, had a thrilling experience while accompanying the remains from Moorehead to the little hamlet where the remains were to be interred.

The party arrived at Moorehead at about 8 o'clock in the morning and at once made arrangements for conveyances to West Liberty, the home of the late representative, about twenty-five miles over the mountains.

Col. John R. Fellows, of New York, who also accompanied the party as a representative of the house committee, was taken ill and concluded not to accompany the party.

At about 10 o'clock the carriages and hearse arrived and the start was made in a heavy snow storm, which soon developed into a terrible blizzard. The cortege consisted of the hearse, a closed carriage in which rode Senators Warren and Pasco, and Representatives Gillespie and Paynter and two uncovered wagons that conveyed the remainder of the party.

The story of their experiences is best told by Representative Long, who said:

"I have seen some tough experiences in my day but none as bad as this one. After leaving Moorehead the cold became severe and the blizzard blinding and the sufferings of our party grew intense.

"One of the carriages broke down at the top of the mountain, the horses breaking away from it and the vehicle started down the hill at a terrific speed. Mr. Paynter and the driver jumped, the former grabbing a wheel and the latter throwing the tongue around, thus preventing the carriage from plunging down the mountain side.

"We had all been provided with mud boots, and in this manner we waded the streams. Senator Warren became so ill when about ten miles out that is was impossible for him to continue and he was taken to an adjacent house and put to bed, where we found him on our return.

"We had to cross the Yocum river 42 times. There was not a half mile of level road in the entire twenty-five miles. We made a stop at about 2 o'clock and attempted to camp in the snow, but to our dismay we found that every article of food that we had been provided with had been frozen solidly and we were obliged to abandon our intention of camping and continued the journey with no other nourishment than a cup of coffee obtained at a farm house.

"The hearse was only prevented from going over the precipice by attaching to it a strong rope, which was held on to by members of the party. The coffin had its cloth covering torn into shreds and the handles torn off.

"But one of the vehicles used can be used again. Senator Pasco while holding to the rope attached to the hearse had one of the fingers of his left hand broken and his hand so badly lacerated that he will not be able to use it for sometime.

"One of the ladies was severely frost bitten and had to be lifted out of the carriage. We reached West Liberty at about 8 o'clock at night."

THE CLEVELAND BOOM.

It Will Progress From This Day With Vigor.

The ex-President Talks on His Letter to Bragg.

Four Hundred Thousand Voters Will Petition the Chicago Convention to Nominate Him.

New York, March 15.—Ex-President Cleveland was seen at his Lakewood cottage last night and informed of the publication by Gen. Bragg of his letter regarding the next nominee of the democratic party for the presidency.

Mr. Cleveland said: "If Gen. Bragg has published any letter of mine it is all right. I do not recollect just what I wrote, but whatever I said in my letter stands."

Further than that the ex-president would not talk.

It is learned from an intimate friend of Mr. Cleveland that a petition signed by between 300,000 and 400,000 voters will be presented to the Chicago convention asking that Mr. Cleveland be recognized as the candidate of New York state.

CHILDREN BADLY BURNED.

Tiffin, March 15.—A little son and daughter of John Krupp, residing six miles north of this city, were horribly burned by the explosion of some powder which they found in an old trunk where it had been for 17 years.

The children put the powder in pipes and tried to smoke it. Both were badly burned about the face, but will recover.

Three peas (P. P. P.) represent Dr. Pierce's Pleasant Pellets. They are not like the old-fashioned pills. Bad to take, and bad to have taken. Inefficient, too. Try something better. With Pleasant Pellets the benefit is lasting. They cleanse and regulate the liver, stomach and bowels. Taken in time, they *prevent* trouble. In any case, they *cure* it.

And they cure it *easily;* they're mild and gentle, but thorough and effective. There's no disturbance to the system, diet or occupation. One tiny, sugar-coated Pellet for a laxative—three for a cathartic. Sick and Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels are promptly relieved and permanently cured.

They're purely vegetable, perfectly harmless, the smallest, and the easiest to take—but besides that, they're the *cheapest* pill you can buy, for they're *guaranteed* to give satisfaction, or your money is returned. You pay only for the good you get. This is true only of Dr. Pierce's medicines.

POSTOFFICE BILL.

It Has Passed the Senate by a Vote of 24 to 21.

Washington, March 15.—The senate passed the postoffice building bill by a vote of 24 to 21. Mr. Sherman voting in the negative and Mr. Brice not voting.

The bill is an omnibus which directs the secretary of the treasury to have the supervising architect prepare plans for public buildings in all cities where the postal receipts for three years shall exceed $9,000 and not exceed $90,000.

The bill named some of the requirements of such buildings and provides their erection to be ordered and their locations designated by the postmaster-general and secretary of the treasury.

The cost of such buildings may not exceed three years' postal receipts nor more than $75,000 in all for one building. This bill is the outcome of one introduced by Mr. Paddock.

MAUMEE NOTES.

Maumee, March 15.—(Special)—Miss Abbie Corswell returned home from Oswego, N. Y., last Saturday, for a few weeks' visit with friends. Miss Abbie is president of the Woman's Relief corps at Oswego, and is a prominent worker in the order.

Will Nuhfer and Charley Steva have gone to Anderson, Ind.

Mr. Baker, of Toledo, has purchased the Paul Wise garden farm of 12 acres, located near the Claflin paper mill and has taken possession with his family.

Hon. George Ballentine, of Utica, N. Y., will be the guest of F. D. Crain on Thursday.

Mrs. R. A. Crain leaves next Friday for Groton, N. Y., to be absent during the summer.

TIFFIN REPUBLICANS.

Tiffin, O., March 15.—The republicans of Tiffin held a convention in the city hall last evening and selected the following ticket: City commissioner, Scudder Chamberlain; gas trustee, E. W. Stephenson; members of the city board of education, Perry A. Bradley and B. Frank Myers.

MURDERED IN THE WEST.

A Findlay Boy Meets a Violent Death.

Killed by a Man Against Whom He Would be Obliged to Testify in Court.

Findlay March 15.—(Special)—Charles Phleger, a well-known Findlay boy, was cruelly murdered in a restaurant in Sacramento, Cal., on Saturday night by a man named Palmer.

The murderer and Phleger were both employed on the ranch of ex-Senator James G. Fair. Palmer was arrested on the charge of embezzlement and Phleger was a very important witness against him, hence his reason for wanting him out of the way.

His aged parents are nearly crazed with grief over his death. His only sister left yesterday for Sacramento.

Fire at Van Buren.

The barn connected with Vaughn's hotel at Van Buren burned yesterday morning with all its contents, including four head of valuable horses and one cow. Every effort was made to save them, but without success. Only $100 insurance was carried on the barn. A small blacksmith shop adjoining was also burned. The village has no fire protection of any kind.

Scalded to Death.

Word was received here yesterday of a child's horrible death near Bairdstown, northeast of this city. The child was playing around a kettle of boiling maple syrup and in some manner fell in, and was scalded to death. The family name is Leathers.

CHILE'S NEW CABINET.

Matta at the Head of the Interior Department.

The New Ministry Will Hold Office Until the Meeting of Congress in June.

New York, March 15.—A Valparaiso special to the Herald says that the new ministry which will take office to-day is officially gazetted as follows:

Foreign affairs—Juan Castellon.
Interior—Eduardo Matta.
Justice—Gasper Toro.
Finance—Augustin Edwards.
War and navy—Luis Barros Borgone.
Public works—Jorge Riesco, late intendente of Valparaiso.

All the above have served in the cabinet before, excepting Senor Toro.

It is generally believed the new ministry will hold office until congress meets in June.

MURDERED BY HIGHWAYMEN.

A Bold Piece of Work by a Couple of Bad Men.

Jobs, O., March 15.—James Carr, a well-known miner of this place, while returning home from Jacksonville, where he had been to get $85, was stopped in a lonely spot near there by Sam Juniper, ex-convict, and a tough named Lewis. They wore heavy masks, and demanding Carr's money and being refused, they shot him and attempted to rob him of his money.

They were driven away by some hunters who were attracted by the shooting. Juniper and Lewis took to the woods and are still at large. Carr died, leaving a large family.

Over 200 men have left here, armed with guns and will scour the woods for Carr's assailants.

TRANS-ATLANTIC TRUST.

A New Corporation in Existence.

A Company Formed With Unlimited Capitol to Make Investments in This Country.

Chicago, March 15.—A syndicate has been formed here for the purpose of making investments in the United States.

The name of the concern will be the Trans-Atlantic Mortgage and Security Trust (limited).

The nominal capital is to be $5,000,000, but is said to have practically unlimited resources. The Marquis of Tweedale is said to be the head and front of the scheme, and among his associates are Sir John Pender and Gerald Balfour and other well known capitalists of England.

The board is to be purely American, which will pass upon all American investments, and which will control the business of the concern in this country.

Among the American directors are the names of Calvin Goddard and other well-known capitalists of Chicago. The corporation will untertake trust and agencies of every description, the issuing and guaranteeing capital for companies and the conversion of industrial business into joint stock companies.

The object is to secure control of gilt edge American properties of all descriptions.

JAPANESE ELECTIONS.

Yokohoma, Feb. 25.—The elections for members of the Japanese diet are practically finished, but the exact result is not known. The government newspapers claim a majority of about twenty-five, but this figure is reached by counting all the independents as government supporters. The elections have been distinguished by riots and assaults, there having been 20 persons killed and 140 wounded at various times during the campaign.

"Brown's Bronchial Troches" are widely known as an admirable remedy for bronchitis, hoarseness, coughs and throat troubles. Sold only in boxes.

CONFLICTING VIEWS.

A Proper Question Answered In a Straight-Forward Way.

The Results of Science, Aided By Skillful, Honest and Methodical Treatment Can and Do Cure Catarrh Completely and Permanently.

"Doctor," said a lady who recently called to consult in regard to treatment, "my family physician told me my catarrh could not be cured. How is it that one doctor says it can't be cured and another says it can Who am I to believe?"

To this lady and to all others whose minds may be vexed with conflicting representations on these questions, Dr. Copeland has this to say: "The strides of science have been so rapid, the additions to our stock of knowledge of the human system have come so fast and are so varied in their character, so far-reaching in their effects, and so subversive of old theories, that it is impossible for any one man to keep up with them all. The family physician is so absorbed with his general work that he has not time to keep up with the rapid pace of science on this great subject. Not having had the time or the opportunity to make a special study of the nature of this disease and trace its many disastrous results; not having the special appliances, the special knowledge, the special skill necessary to success, he naturally fails, and judging by his own crude and imperfect work is ready to encourage the impression that catarrh is incurable. In this way great injustice is often done by keeping persons from applying to a qualified specialist until the disease has spread through and undermined the whole system and a cure has really become impossible, or can only be accomplished after many months of patient and persistent treatment."

In other words, Dr. Copeland and his associates do not charge that the family physician willfully speaks falsely when he says catarrh can not be cured, but that he makes rash statements upon subjects with which he is not sufficiently familiar.

ADDITIONAL TESTIMONY.

An Interesting Statement From a Well-Known Citizen of Toledo.

The statement of Mr. Joseph Harbracht, of 252 Anna street, is of more than usual interest, and for the benefit of others it is given in full, as follows:

"I had catarrh for eight years and more," said Mr. Harbracht, "and suffered all the symptoms of that loathsome disease. My head was stopped up, and I had severe pains over my eyes. There was a continual discharge of mucous into my throat. My throat was very sore as was also my tongue and mouth. They would be raw and inflamed and cause me great pain, especially in eating and swallowing. My ears were affected and I suffered greatly with earache. Both sides of my neck were swollen and sore. When I caught cold, which was often, these symptoms would become aggravated and then my suffering would be so much more. I did not know what it was to get a good night's sleep, and when I got up in the morning I would be tired and worn out and totally unfit to do a day's work.

"For over a month I was so bad that I could not work at all. The disease invaded my whole system and I was but a wreck of my former self. Sometime ago I placed myself under treatment with Dr. Copeland and associates and I must say it was the best thing I ever did. They have made a new man of me. All the soreness has left me. I feel like a different person and I want to tell everybody, who has suffered as I did, the immense amount of good that has been done me. I cheerfully recommend Dr. Copeland and associates. I make this statement of my own free will and do it because I want others to know where they can be benefited. I positively say they have cured me.

PLAYED A DOUBLE ROLE

Dr. W. Warren Perry in Much Trouble.

A Wedding Feast That Was Not Eaten.

Sensational Termination of a Matrimonial Arrangement in a Quiet Little Village in Illinois.

Elizabeth, Ill., arch 15.—Dr. W. Warren Perry, of Elizabeth, and Miss Flossie Mae Evans, of Springfield, were to have been married last evening at Elizabeth.

The number of invited guests was so large that the home of the bridegroom was thought inadequate to the assemblage and the largest audience room in the village was chartered for the occasion.

Five minutes before the time appointed for the ceremony arrived a deputy sheriff had appeared at the home of the Perrys and placed the prospective bridegroom under arrest on the strength of a telephone message from the sheriff's office at Galena, where a young woman had preferred a charge of illegitimate parentage against young Perry.

She had arrived from her home in Iowa one hour before the ceremony was to have taken place. The young medico, on finding himself under arrest, whipped out a pen knife and attempted to cut his throat, but was prevented from doing it.

The prospective bride and the mother of the young man fainted and a scene of confusion ensued.

Warren Perry, the principal in the affair, graduated from a medical college at Iowa City a week ago. While he was at school the intrigue which resulted in his discomfiture and the disgrace of his parents last night was carried on.

The young lady whom he was to have married moves in high social circles at the state capital.

Pain from indigestion, dyspepsia and sour stomach, and too hearty eating, is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this.

GRAND DUKE OF HESSE.

Ludwig IV., Grand Duke of Hesse, who died Sunday, was born September 12, 1837. He succeeded to the throne on the death of his uncle, Grand Duke Ludwig III., on June 13, 1877. On July 1, 1862, he married Princess Alice, second daughter of Queen Victoria, who died on December 14, 1878.

His eldest daughter, Princess Victoria, married Prince Ludwig of Battenberg; his second daughter, Princess Elizabeth, married the Grand Duke Sergius of Russia, while his third daughter, Princess Irene, married Prince Henry of Prussia. There is yet another daughter, Princess Alice, who was born June 6, 1872.

Prince Ernest Ludwig, the Grand Duke's only son, and successor, was born November 25, 1868.

HORRIBLE ALLEGATION.

Brutal Treatment of a Sylvania Saloonkeeper.

Locked in a Shanty Forty-Eight Hours

Without Food or Fuel, He is Found Frozen and Half Dead—He Dies From Hunger and Exposure—Suit for Damages.

A horrible story of brutality comes to the Bee from Sylvania. If true it rivals in fiendishness anything recorded in this section for years.

Samuel and David La Pointe have groceries at Vienna, Sylvania and several other places. To each is attached a saloon.

The establishment of a saloon at Sylvania seems to have given great offense to the people of the vicinity. La Point's store at Sylvania was in charge of and managed by a young man named Peter Schroeder, whose home is at Erie, Mich. Three weeks ago Saturday Schroeder was arrested on a warrant sworn out by some of the temperance people, so it is alleged, on the charge of selling liquor on Sunday.

Schroeder denied the charges, bail was refused, and he was locked up in an old house known as the caboose, and held there without either fuel or food from Saturday until Monday afternoon.

It is to be hoped for the good name of the people of Sylvania that the charges are not true.

Schroeder was a strapping, hardy young fellow, but so great were the hardships endured that when he was visited by the authorities on Monday he was found half dead from hunger and cold. He was unable to speak, and it was evident that he could not live.

He was taken to his home at Erie and died there of pneumonia 36 hours later.

It is claimed by Schroeder's friends that not only were they not notified, but that no person was allowed to go near him from Saturday to Monday.

It was extremely cold during the two days of his imprisonment, and notwithstanding he was warmly clothed, the cold was so intense that he was almost literally frozen.

When friends went to his rescue Monday they found him with his overcoat wrapped tightly around him and his hands in a pair of warm mitts which were fortunately in his overcoat pocket when arrested.

The greatest indignation prevails among young Schroeder's friends, and the Bee was informed last evening that Messrs. La Point have in the name of the young man's father begun suit against the Sylvania authorities for $20,000 damages.

They propose making it hot for those who are directly responsible for the young man's death.

Schroeder's father is an old and respected citizen of Erie, Mich., and the awful death of his boy has left him heartbroken.

TO THE AFFLICTED.

There is no longer an excuse for hesitancy on the part of any sufferer from a chronic ailment to consult and engage the services of Drs. France & Ottman, and an observance of the crowds that throng their parlors for a single day might well be taken as evidence that such a hesitancy does not exist. The doctors are certainly wonderful men. Their rapid reading of disease manifestations and application of remedies to their cure can only be accounted for by the law of special adaptation or intuition. They prescribe for from four to five hundred patients every four weeks and they not only instantly recognize each patient but have in mind every feature of their disease and note every change in their condition without reference to the written records which they keep alone, for their future statistical value. They possess powers of mind and penetration accorded to but few human beings. Don't delay, but consult them free of charge.

Drs. France & Ottman, formerly of New York, now of the France Medical and Surgical Institute, Columbus, Ohio, by request of many friends and patients, have decided to visit Toledo, Wednesday, March 16. Consultation and examination free and strictly confidential in the private parlor of the Burnett house, from 8 a. m. to 9 p. m., one day only.

THE TUNNEL DISASTER.

Three More Suits Against the L. S. and the F. & P. M.

Mary Fisher, of Toledo, Brings Suit for $25,000—Aggregate Damages Claimed Amount to $260,000.

Yesterday, at Monroe, Mich., three more suits were begun against the Lake Shore and the Flint & Pere Marquette railroads, jointly, for damages for personal injuries received in the Toledo tunnel disaster on Nov. 28, 1891. The amounts asked are as follows: Mary Fisher, Toledo, $25,000; John Campbell, Chicago, $25,000; Eliza A. James, Buffalo, N. Y., $40,000.

Nine suits are now pending at Monroe against the two companies jointly, and the damages claimed aggregate $260,000.

Scribner & Hurd, and Hamilton & Ford had filed several cases against both roads in the common pleas court of Lucas county.

The F. & P. M. attorney filed a motion to set aside the summons, which motion Judge Pugsley granted on the ground that service made on the agent of the Lake Shore road was not sufficient to bring the F. & P. M. into court, hence the necessity of filing the cases in Monroe, Mich., in which state the F. & P. M. operates.

Appointed for the Builders' Exchange—P. J. Kranz the Man.

Mr. John Stolberg, the secretary of the Builders' Exchange, to whom authority was given to appoint an assistant secretary, has made a selection in the person of Mr. P. J. Kranz, who was formerly bookkeeper for the Mutual Aid Building and Loan company, and for the firm of Theo. Schmidt & Co. Mr. Kranz is highly spoken of, and will undoubtedly make an efficient officer. The directors meet this evening.

AN OUTING GROUND

Will Probably be Secured by the Cycling Club.

A meeting of the Toledo Cycling club was held last evening, at which the following trustees were elected: James Hodge, John C. Kellar, Samuel Dority, James T. Smith, Edward S. Ludlow, James H. Barr and Fred Boice. The directors will meet next week and elect officers. It is probable that the club will have an outing ground the coming summer. The membership, on recommendation of the membership committee, will be limited to 300.

TO-NIGHT'S PUBLIC MEETING

To Be Held at the Council Chamber on the Gas Question.

In accordance with the call of the natural gas investigating committee, a public meeting will be held to-night at the council chamber at 7:30 for the purpose of hearing all citizens who desire to talk upon the question of pumps, future supply, how the plant should be managed, and any other topic of interest. Mayor Emmick will preside, and the committee extends a cordial invitation to all to give them the weight of their opinons on the matter which they have in hand.

ELEVENTH COMMENCEMENT.

Of the Toledo Medical College at Memorial Hall To-Night.

This evening the eleventh annual commencement of the Toledo Medical college will be held at Memorial hall, beginning at 8 o'clock, and promises to be very interesting. Besides some fine music, Rev. Charles Scadding, Judge Austin, Prof. John North and Dr. G. S. Clark will deliver addresses, the diplomas being awarded by Judge Austin. President B. W. Minton; vice president, Miss R. Blackburn; secretary, A. D. Hobart; treasurer, J. T. Iler; valedictorian, G. S. Clarke. The committee of arrangements is composed of Mrs. M. E. Emery, L. W. Briggs and F. G. Schultz

EPWORTH LEAGUE.

Monthly Meeting of St. John's Chapter Last Night.

The regular monthly business meeting and social session of St. John's chapter of the Epworth league was held last night at the church on Magnolia street, and was well attended. After devotional exercises and the disposal of several items of business, a brief program of literary and musical numbers was rendered, which included a piano solo by Eddie Williams, reading by Miss Alice Fellows, and solos by Mrs. E. H. Manzy and Mr. Harry Fish. Miss Emma Swartz, who attended the Elmore convention last week, made report of the proceedings in a very interesting manner, and many points advanced will be utilized in future labors. The league is in excellent condition, and is doing a good work among the young people in lower town.

RECTOR FOR ST. PAUL'S.

A Cleveland Clergyman Invited to the East Side.

Some time since a call was extended by the congregation of St. Paul's church, East Toledo, to Rev. Mabley, who is now rector of St. Luke's Episcopal church, West Cleveland, and it appears from the following paragraph taken from last evening's Cleveland Press, that East Toledo Episcopalians will not be much longer without a rector:

"The East Toledo Episcopal church has extended a call to Rev. Mabley, of St. Luke's church, West Cleveland. They offer twice the remuneration Rev. Mabley is now receiving, and it is probable that he will accept. He will leave West Cleveland with the best wishes of his parishioners, as he has done much toward building up the church."

CHANGED INTO A TUG.

The Sloop Osprey Will Be Known as the C. E. Wilde.

The sloop Osprey, recently purchased by C. E. Wilde, is being rebuilt for a tug, and will be ready for running the deep in about 30 days. She will have a fore and aft compound engine and two bulkheads. The name will be changed to the C. E. Wilde.

THE BALLOT LAW

Will Be Amended in Several Particulars Before the Legislature Quits.

Within the next ten days a special bill will be introduced in the state legislature, making extensive alterations in the Australian ballot law. The measure will be put through as a short separate bill in advance of a general revision of the Australian law as a whole.

By the terms of this bill all township spring elections, municipal elections in villages and hamlets not divided into wards, are exempt from the operation of the Australian ballot law. This also applied to school eelctions and boards of elections in townships, special and village districts not divided into wards.

TOLEDO CANOE CLUB.

The Annual Meeting Was Held Last Evening.

Last evening the Toledo Canoe club held its annual meeting. Geo. L. Butterfield was re-elected commodore, an honor that has been conferred upon him for seven successive years; R. Dawson was elected vice commodore; Chas. A. Armstrong secretary, and Walter Woodruff treasurer.

The executive committee for the ensuing year will be composed of the following members: G. L. Butterfield, R. Dawson, C. A. Armstrong, J. W. Hepburn, George Frey, George Miller, W. Schiller.

Frank Thomas was elected chairman of the regatta committee. The auditing committee consists of Messrs. Hepburn, Miller and Thomas.

The club will soon adopt a new constitution. It is expected that the coming season will be a big one for canoeists.

THE REFEREE'S FINDINGS

In the Union Manufacturing Company Muddle—Report Filed To-Day.

The litigation involving the indebtedness of the Union Manufacturing company, insolvent, which has been pending in common pleas court, has been one of the most heated legal contests on the the common pleas docket in years.

Action was commenced by the creditors of the corporation in September, 1890, to settle the affairs of the concern and enforce the payment of debts against stockholders.

After a bitter fight, the court referred the case to Charles Pratt, as referee, to adjust the claims, and determine who was liable. This action was taken last August, and the hearing before the referee involved over three weeks' time and the taking of much evidence.

Mr. Pratt announced his decision in the case to-day. He finds the indebtedness of the concern as follows:

Due general creditors	$ 33,343.77
Due directors and stockholders	133,832.02
Due banks	36,832.42
Total indebtedness	$203,641.21

The report shows a peculiar phase with regard to the parties to the suit, being that directors and stockholders are both plaintiff and defendants in the suit.

The referee also holds that the unpaid subscription is liable for the general debts.

IT'S A BANQUET.

So Decides the Pan-Helenic Boys at Last Night's Meeting.

The executive committee of the Pan-Helenic society met at Waite & Snider's office last evening to discuss the advisability of giving a banquet again this year.

Aside from a full attendance on the part of the members of the committee the occasion was made more enthusiastic by the presence of about twenty other members.

Before proceeding with the regular order of business, officers to serve the ensuing year were elected as follows:

President—C. G. Wilson.
Secretary—Glenn McGaw.
Treasurer—O. B. Snider.

The banquet was the topic of discussion and all were decidedly in favor of a spread.

The event last year was a success in every detail and the boys are anxious to keep the ball rolling. The vote was unanimous in favor of a banquet.

The following committee was appointed to complete arrangements for the affair:

F. E. Roff, chairman; E. F. Walbridge, O. B. Snider, W. P. Heston, J. R. W. Cooper.

Committees on program, invitation and music were also appointed.

It is especially desired that all Greek Letter Fraternity men in the city send in their names to the secretary or C. B. Ballou, chairman of the committee on invitation.

The following gentlemen were present at the meeting last evening: R. S. Holbrook, C. G. Wilson, H. H. Cushing, O. B. Snider, C. H. Beckham, John R. Calder, O. N. Hiett, F. E. Roff, C. G. Ballou, O. L. Foster, Dr. Watts, Glen McGaw, J. B. Batelle, C. E. Kent, J. R. W. Cooper, W. P. Heston.

THE GLEE CLUB MUSS

Between Westminster Young People and Ann Arbor Boys.

The Bee is in receipt of the following from Mr. Frank C. Smith, of the University of Michigan Glee and Banjo clubs, in reply to the statements made by Mr. Frank W. Rickenbaugh in a recent issue:

To the Editor: My attention has recently been called to an article in your issue of March 5 under the heading of "Ann Arbor Glee Club Disappoints the Westminster Young People's Society," etc. the alleged facts coming from Mr. F. W. Rickenbaugh.

In justice to the club and to my own course in the matter, I feel called upon to ask you to publish this communication.

On February 8 Mr .R. wrote me asking if we could not come to Toledo, and appear under the auspices of the Westminster society, for "our expenses and the glory of dong up Cornell." I replied that we would name a figure that would barely cover our expenses. The next time I heard from Mr. R. was under date of February 19. In the meantime, four days after my offer, I revoked the offer of February 9, did not hear from him for two or three days, and so concluded that my business with Mr. R. was no more, and proceeded to correspond with other parties relative to our Toledo date.

On the 19th, however, Mr. R. wrote expressing regret that we could not come at the figure covering expenses, and asking for our best price. I delayed answering this until hearing from the other parties above mentioned. They were willing to do the business on a much more satisfactory basis than Mr. R., and accordingly I closed with them, and so advised Mr. R. on the 27th.

IN TRADING CIRCLES

Both at Our Home and Abroad.

Wheat Quotations for the Day—Price Current for Produce and Other Articles.

London, March 14.—The Mark Lane Express, in its weekly review of the British grain trade, says: English wheats are firmer at an average rise of 6d; foreign wheat is weak. The supplies of Indian wheats are increasing. The old crop is being shipped with feverish haste to get clear of it before the new harvest comes in. American red winter is 6d lower. Californian is quoted at Liverpool 3d per cental cheaper. Barley, oats and corn are firm.

At to-day's market English and foreign wheats declined 6d. American flour was pressed for sale at 26s. Californian flour was quoted at 31s. Oats and corn were held for 3d advance.

Wheat in Farmer's Hands.

Minneapolis, March 14.—The Evening Journal has collected reports from 60 different points in Minnesota and Dakota, showing that there are, on safe estimates, about 32,000,000 bu. of wheat in Minnesota and the two Dakotas in the farmers' hands, after deducting wheat required for seed and for farmers' consumption.

The average amount of wheat unsold is about 31.3 per cent. of the crop. The seeding conditions are almost perfect, the moisture conditions being best for five years. The indications are for almost same acreage as last year.

Exports of Breadstuffs for Europe.

Liverpool, March 14.—(Special cable to Daily Trade Bulletin, Chicago,)—Shipments of flour and wheat to United Kingdom during the past week, 4,030,000 bu.; to continent, 3,200,000 bu.; total, 7,230,000. Shipments during the week previous, 5,460,000 bu. Requirements, 7,000,000 bu.—Corn Trade News.

The clearances of flour and wheat to Europe since August 1—32 weeks—as cabled to the Daily Trade Bulletin, have been as follows: To U. K., 127,204,000 bu; to Continent, 127,862,000 bu, total, 255,066,000 bu. Requirements, 224,000,000 bu.

Available Stocks of Breadstuffs.

Our usual monthly report of the stock of breadstuffs in America has been delayed this month, but will be published in detail on Wednesday next. During February the supplies in Europe and afloat decreased 9,500,000 bu—5,00,000 bu afloat, 1,700,000 bu in United Kingdom, 4,000,000 bu in France, 2,000,000 bu in Belgium, Germany and Holland and 1,500,000 in Russia. The stocks of flour in the United States and Canada increased about 37,000 barrels. The stocks at the larger points in the United States increased about 92,000 barrels and in Canada about 6,000 barrels, while the interior points in the United States show a reduction of 51,000 barrels. The reduction in the supplies of wheat in the United States and Canada was about 6,516,000 bu. The aggregate reduction in the supply of flour and wheat was equal about 6,253,000 bu. The decrease in the stocks in Europe and America during February was equal about 15,853,000 bu.—Chicago Bulletin.

The Markets.

London wheat and corn markets heavy and lower. Liverpool wheat dull and 1-2 pence lower; corn quiet and 3-4 pence lower.

The receipts of wheat at seven principal western points to-day are 602,913 bu., compared with 340,997 bu. on the same day last year.

Shipments of wheat from India last week equaled 720,000 bu. Previous week 660,000 bu. From April 1, the commencement of the crop year, to March 12, 53,178,000 bu., compared with 25,500,000 bu. in the corresponding period in 1891-92.

Imports into the United Kingdom for the week were 800,000 bu of wheat and 211,000 bbls. of flour, equal to 1,749,000 bu of wheat, and 1,300,000 bu of corn.

The quantity of flour and wheat on ocean passage increased last week 5,528,000 bus, being an increase to the United Kingdom of 2,256,000 bus, and an increase to the Continent of 1,272,000 bus. Corn increased 708,000 bus.

Our table here in of available wheat and corn shows an increase of 2,791,000 bus. Corn increased 708,000 bus.

The receipts of wheat in the northwest are again restored to large proportions. Minneapolis and Duluth furnish 404,951 bus. and the other five points 197,972 bus. The export clearances yesterday from four Atlantic ports were, wheat, 361,080 bus., and flour to an aggregate of 750,000 bus. Export of corn, 351,836 bus., and of oats 17,914 bus. English markets as reported herein are dull and lower for wheat and corn.

Apologetic.

It is stated that not one-half the ordinary quantity of rye will be produced the coming year on the banks of the Volga in Russia. Perhaps some one expected us to print the item. Not much. We have been engaged since July last in trying to maintain a fair price for wheat in the west, based on the short crops of Europe. We have never advocated above $1 at the lake ports, and we have been sadly disappointed even in that expectation. Reviewing the landscape we believe we have been deceived and swindled. We don't believe there was any deficiency. We believe even Russia has a full supply if it could be evenly distributed. We hope no one will come fooling around us any more with reports of short crops. If we hear of any we shall advise selling on them. We ought to have been guided by the results of a long experience. Short crop buying has busted more dealers than any other feature in the deal. However, one reason for American weakness, and consequently foreign weakness is the stock of 12,000,000 bu of wheat at Chicago, mostly spring, and which in the peculiar condition of markets is not very saleable. The Duluth wheat is saleable, and Duluth dealers are offering their No. 2, we are informed, at less price C. I. F. at Buffalo than choice No. 2 can be sold at, and so the price continues to decline.

The Markets To-day.

The leading points of news to-day are a gain of a bearish influence. The increase of 3,528,000 bu. in the flour and wheat on ocean passage is a very extraordinary event at this time of year, although 1,259,000 bu. may be deducted from it for deficient imports on the week. India, it is stated is hurrying out the balance of her wheat crop before the new one comes on the market, and we believe it, from the shipments of 720,000 bu. There seems to be wheat enough in all directions. The Chicago Bulletin says the shipments of wheat and flour to England and Europe last week were 230,000 bu. in excess of estimated consumption over and above home-grown wheat.

The wheat markets east and west have been weak and lower all day. Upon every little rally the short sellers pounded it and there were no friends strong and courageous enough to support it.

Corn is also lower. The cold, clear weather favors farmers deliveries, and keeps the grading.

Liverpool and Paris markets are reported closing lower.

In New York March wheat closed 5-8c and May 1 1-4c lower. March and May corn 3-4c lower. May oats 5-8c lower.

In Chicago May wheat closed 1 1-8c lower. March and May corn 3-8c and May oats 5-8c, all lower.

In Toledo there has been more than usual trading in wheat futures. May has predominated, as usual, but there has been considerable activity for July also. Opening trades were 3-8c lower, and the market almost steadily declined to the close which was 1 1-4c lower for May. July opened 1-4c and closed 1-2c to 5-8c lower. On the call May sold at 92 1-2c and August at 87c. After the call May sold at 92 5-8c and closed at 91 3-4c. July sold at 88c and closed at 87 3-4c asked.

Cash wheat was not much inquired for. The sales were light. No 2 soft sold at 92c to 91 3-4c, a loss of 1 2c; No 3 soft at 90c to 89 3-4c; No 2 white at 91c

Corn was more active and lower. No 2 at 39 1-2c to 40c; May, 39 5-8c; No 3 at 39c to 39 1-2c; No 4 at 37 3-4c; No 3 yellow, 40c.

Clover seed continued dull and the sales were in small lots. Prices were 5c lower. Prime for cash at $7 35; No 2 at $7 20 to $7 15.

The little trading this morning was confined chiefly to Rich. & W. P., Reading, Tenn. Coal, New England and Sugar. The sales to noon were only 150,000 shares. New England was the strong feature of the opening, advancing 1 1-2, to 50 1-4. On the other hand sugar was the weak feature, declining 1 per cent. Reading, after a slight advance, retired nearly 1 per cent. At 11 o'clock the general market was firm. After 11 o'clock the market was less active but the tone continued firm with slight improvements in most cases. At noon the market was barely steady and at this writing it is extremely dull.

The democrats of Arkansas say Cleveland first, then Boies.

Cleveland and reform is good enough slogan for the democratic party.

Canada is tossing the Old Lady now, in this seal business. It's a way American children fall into.

The Ohio delegation to the Chicago convention may be for somebody else but the democrats of Ohio are for Grover Cleveland.

The seventy-cent dollar will not be a good campaign issue. The democrats in congress ought to know that without feeling the public pulse.

The best way to reform financial affairs in Toledo is to defeat every man for re-election who ahs been direlict in performing his duty. Make no exceptions.

The Buffalo News has just added a $40,000 Hoe press to help turn out its immense daily edtions. The News has had a phenomenal success, but it is all deserved. It is bright and newsy and enterprising.

Foraker men against Sherman men is as much an issue in the Ohio situation as republican against democrat. It enters into the redistricting bill as well as the Minneapolis possibilities.

Henry Watterson doesn't appear to enjoy the joke of his candidacy. He sarcastically reminds his interviewers that he held a commission in the confederate army, and is barred by present public opinion.

It is safe to to say that not more than half a dozen councilmen and aldermen care a whit about the deplorable condition of the city finances. To vote away the money seems to be the highest ambition of the majority.

Mr Cleveland was interviewed last night about the announcement of his candidacy, and said that what he wrote Gen. Bragg stands. It will be a firm stand, and the response of the people will be the ground swell of an aggressive campaign for tariff reform.

Our Irish-American citizens are coming forward in the newspapers with their opinions of the man who went across the sea to insult them in the house of their enemy. One Connecticut man asks for Mr. Foster's retirement. He showed the spirit of meanness in one expression as surely as did R. R. R. Burchard.

According to the gleeful organs, the McKinley law has turned old world workingmen out to starve. We must be sending them flour and grain to avert the dreadful calamity. It would seem quite as well for all concerned, if these workingmen were able to buy our farmers' grain. The policy of starving one's customers is not a large and wise one.

Chauncey Depew says the great question is how to get the most fun out of life. The jolly Chauncey should go into the hospital where some of the victims of that horrible Chrismas accident on his railroad lie, dying by inches. He might be amused with thinking if proper signals had been in use by his great corporation, possibly this sum of excruciating human misery could have been averted.

When a city gets in the deplorable condition that it takes nearly half the levy allowed by law to pay the interest on its funded debt it is time to knock recreant councilmen on the head with a club of public opinion. There is no politics in the Toledo situation except as the republicans being in the majority are responsible for whatever is done; and, as what has been done is mostly bad, the republican council shhould be ousted from power.

In Mr. Clarkson's letter as Chairman of the national republican committee, he commends the manner in which Quay hurled his 'masses of power" against weak places in the enemy's lines. "Masses of power" means simply big boodle, and as the campaign of '88, under Quay's plan was carried by means of the fund contributed by the beneficiaries of republican legislation, his successor, Clarkson, serves notice that the approaching campaign will be carried on in like manner.

The Toronto Empire betrays its knowledge of affairs when it says:

Germany is not the most stringently governed country in the world, and it has always been evident that the bulk of the people there are not only law abiding but well satisfied with their laws. The present popular outburst is momentary in its character and natural, perhaps, on the part of the unemployed and starving when they are told that God and the emperor are on their side.

The Empire is so super-loyal to despotic government, the wish, in this case, is father to the thought.

The republicans are scheming to capture the electoral vote of Michigan by a ruling from their partisan supreme court. Although the Michigan law is clearly in compliance with the provisions of the constitution of the United States, so recognized many times by valid legislation of other states, the republicans will not hesitate to judicially pronounce against it. The attitude of the republicans of Michigan threaten to seriously complicate the result of the presidential election. The democratic house may be the arbiter of the people next winter.

SOUTHERN NATURE

It were better for northern people to speak of the slowness of their southern brethren as evidence of their love of ease, except as occasionally a southerner calls the wait by its right name, thereby giving all a license to call a spade a spade. Prof. Trent, of the University of Virginia, has just written for the Charles Dudley Warner series of "American Men of Letters" a book upon the life and writings of William Gilmore Simms, of South Carolina. The book is reveiwed by the Louisville Courier-Journal with that freedom of expression that is distinctively southern and which will give northern readers an inside view of native southern idleness. The thought is brought out by Simms' proverbial carelessness of expression and the unfinished condition of all of his works of fiction. Using this for a text the Courier-Journal says:

"It is not so much the feverish activity of Simms' imagination as his constitutional aversion to hard work that makes his novels almost unreadable to the present generation. He polished nothing. We do not need a biographer or a critic to tell us this. His work was literally "tossed off," and to posterity he pays the penalty —that contempt which every real southerner has for that which may not be lightly and easily done; for that which is not mere recreation. The love of idleness is in the blood, and it will take many a long age before any man of pure southern parentage can be found so recreant to the instincts of his ancestors as to blush at the accusation of laziness. The southerner is not only lazy by nature, but is proud of it; he considers it a distinction; and in spite of the momentous facts of emancipation and reconstruction there is not one of the old blood to whom the necessity for labor is not a personal indignity, not one who could be strictly considered one of the "blue hen's chickens," who does not believe that, although, in a moment of impulsive wrath the Almighty cursed the earth, and declared that man should win his bread by the sweat of his brow, he did it with a mental reservation, knowing that a few favored ones would be able to escape the penalty, and afterwards, in a moment of poignant remorse, created heaven and peopled it with idlers. We have not risen nor will we ever rise, or more properly, fall, to the ridiculous assumption that there is honor in toil, save in so far as it may be a necessity heroically met. We can labor when "the sides of our intent" are sufficiently "pricked," but we will never so far forget our dignity as to speak a word in favor of the goad. Such a man was Simms, and it is in this inherent trait that is reflected in his works, whether verse or prose."

WEST VIRGINIA POLITICS.

No state in the Union has been more loyal to the democracy under trying circumstances than West Virginia. Trying circumstances in that the republicans have applied the most adroit means of despoiling the state year after year. The democrats of West Virginia are true blue, and realizing their political danger they make all the more manly and vigorous campaigns for the principles of government they hold dear. That there is real danger this year is expressed by Gov. Fleming,and this expression of doubt ought to stir the democracy to the very depths of rousing work for the old party. In an interview with a Washington newspaper Gov. Fleming says of the present situation:

"West Virginia is a doubtful state. It is doubtful because of the importation of negro voters. Hundreds and thousands of negroes have been brought to the state to work in the iron and coal mines, and they have been there long enough to become citizens and entitled to vote. This vote is naturally republican, and will add materially to the republican vote in the next election. Secretary of War Elkins will be the republican candidate for governor, and he is the strongest republican in the state, hardly excepting Judge Goff. We can carry the state only by the strongest kind of a state and national ticket, the hardest kind of work and the most thorough organization. The prominent candidates for governor are Col. McCorkle, of Charleston; State Senator Easton, a prominent farmer, and Mr. Snickerbridge, and alliance man. There is a strong sentiment in the state for Hon. W. L. Wilson, now in congress. It is understood that Mr. Wilson will accept the nomination if it becomes a party necessity. The gentlemen named are strong men, and any one of them would poll the party vote. But Mr. Wilson's candidacy would mean the tariff issue, and that would be worth a good many votes to the democratic ticket. The silver question is not treated as a party question. There are free-silver democrats and anti-free-silver democrats, and the same observation may be applied to republicans. The governor cannot succeed himself in West Virginia. I shall retire to private life and devote my time to my private affairs. I will have been in public office for fifteen years, and that is enough The legislature is to be elected this fall, and though we may possibly lose the state and electoral ticket, the legislative ticket is pretty sure. This will insure the election of democratic senator. Senator Faulkner is a candidate for re-election. Ex-Senator Camden is also a candidate. It looks now as if the contest would be very close. It will help to bring out the full vote of the party, and, in that way, will be a help to the ticket rather than a disadvantage. In the presidential fight the party is divided between Cleveland, Hill and Gorman. The sentiment is growing in the state that neither Hill nor Cleveland are available candidates, and the trend is unmistakably for Gorman. I would not be surprised to see an out and out Gorman delegation at Chicago, but without instructions."

In the Sunday issue of the New York Press is a large cut representing the crowd at the grand Metropolitan ball in which V-shaped backs and very decollete fronts are chiefly noticeable. Under this is printed a "blue law" enacted in 1792, which reads as follows: "If any white female of ten years or upwards shall appear in any public street, lane, highway, church, court house, tavern, ball-room, theater, or any other place of public resort, with naked shoulders (i. e. low-necked dresses), being able to purchase necessary clothing, she shall forfeit and pay a fine of not less than one or more than two hundred dollars." And this law has never been repealed. It would be quite a scheme to enforce this law all of a sudden, and collect fines enough to finish the Grant monument or the memorial arch.

When a president or an ex-president wants to prove to the country his utter indifference as to how the nominational cat may jump he goes out and shoots ducks. No sooner was President Harrison home with his bag of canvas-backs than Grover Cleveland was the guest of the Red and Gun club on the Susquehanna, and he brought home ducks, too. And Hill has gone hunting down south.

Jay Gould's pastor, the Rev. Dr. Paxton, talks back and says the ten thousand the great stock manipulator put into the church contribution box was as honestly made as the dollars that rattle into other church boxes. It's a case of sour grapes on the part of rival preachers.

The only objection yet raised to Edmunds for the French mission is his resemblance to the statues and portraits of St. Jerome may be confusing to Parisians.

Gov. Russell's boom is booming right along but it doesn't seem to awaken much echo yet.

Speaking of candidates, Murat Halstead thinks —— but what does that matter?

MILLS IN THE LEAD.

Texas Will Send Her Honored Son to the Senate.

Austin, Tex., March 15.—A poll of the members of the legislature would seem to indicate that Representative Mills has about 75 votes for United States senator, with about 25 each for Chilton and Culberson.

The election takes place Wednesday, March 23.

Very Likely a Misapprehension.

The lumber kings are gathered in Washington to oppose putting lumber on the free list. Of course they do this under misapprehension of their true interests. The effect of a tariff is to cheapen the taxed commodity and thereby reduce the profits of the producer don'cher know.—Indianapolis Sentinel.

ABOUT PEOPLE.

Italy's king and queen will visit Hyers during the coming season.

Secretary Blaine, Mr. Springer, Mr. Holman—all ill at once. What's the matter with the Washington climate?

Madame Melba, the Australian prima donna, is the best dressed woman on the operatic stage.

Consul General May will return to the United States in May in order to attend the republican convention.

The Duchess of Connaught and her daughter Patricia are under medical treatment for the prevailing influenza, which has its grip upon princes just as mercilessly as it has upon peasants.

Gov. Russell was at one time one of the leading athletes of Massachusetts, and knows what it is to have carried around with him a skinful of sore bones and a general assortment of cuts, bruises and fractures.

One of the drawbacks connected with Queen Victoria's lofty station is the law that forbids her reading documents or receiving any letters except from her own family until they have been scrutinized by the person in charge of the royal correspondence.

Next Saturday Joseph Francis, of Boston, will celebrate his 91st birthday anniversary. Mr. Francis is the father of the marine life-saving service as it exists to-day throughout the world. He invented the life-saving car in 1839, but did not perfect it until 1847. Its first work was in the saving of 200 lives from the wreck of the ship Ayrshire off the New Jersey coast, January 12, 1850.

MENTIONED ON THE STREETS.

That democrats should keep an eye on the primaries Saturday, from 4 to 7.

That many Toledoans are planning for a European trip the coming summer.

That Charley Murphy still maintains he will not make the race for police clerk.

That the street commissioner grows more anxious as the caucuses and convention draw near.

That the South street plank road still remains a menace to horses and wagons. It ought to be fixed.

That the city's natural gas line has had another weak pull during the cold spell of the past few days.

That several new churches are well under way for the present year, and they will be fine ones, too.

That Akron banks have started a clearing house, but Toledo still does not appear to be in it. Why?

That the last of the regular Star course entertainments will be given at Wheeler's to-night, and is a lecture.

That ex-President Cleveland's letter is received with much gratification by his numerous friends in Toledo.

That the whereabouts of the Bronson wills is the question agitating several lawyers and others interested.

That Oliver Hall, jr., will endeavor to capture the republican nomination for alderman in the Third ward.

That several of the Elks are willing to assume the reins of government at the annual election in the local lodge.

That Louis Steuer appears to have the field all to himself for the nomination as street commissioner on the democratic ticket.

That Judge Austin has invested in a new white tie, to appear en fait as a medical college president at Memorial hall to-night.

That the Union Sunday School teachers' meeting every Saturday has become one of the settled institutions among the instructors.

That the railroad commissionership is still unsettled, much to the aggravation of Toledo republicans who have guessed their all on Bill Kirkby.

That Auditor Walker's financial statement was a good-sized surprise to the people of Toledo, who were almost stunned by the showing made.

That Cleveland men will now have some definite plans upon which to work, since the ex-president states he will run again if it is the will of the party.

That it would not be a bad idea for the police board and firemen to pass a public inspection once in a while, a practice which prevails with success in other cities.

That with the big castle and new buildings at Auburndale and Air Line junction, the K. P.'s of Toledo will not lack for quarters of their own in which to meet.

That an accident is liable to happen any of these days on St. Clair street, between Adams and Jefferson, on account of boys making races with the electric cars.

That the sociological investigating committee will be here to-morrow, and those who have opinions are requested to give them utterance at the First Congregational church.

BRICE IN THE SENATE.

Brief Review of the Senator in Public Life.

He Shows Wisdom in His Political Moves and is Proving Himself to be a Power.

(National Democrat.)

Senator Brice has showed much political shrewdness since he came to Washington, none the least being when he refused to take sides with any of the Ohio interests, and said:

"Let the men of Ohio in their state convention select the men to represent them at Chicago that will best serve the interests of the democracy of Ohio."

Notwithstanding this neutral position, Mr. Brice has the support of all, and will, it is said, be selected as delegate-at-large whether he desires the honor or not.

"Senator Brice's course in national politics is very commendable," said a distinguished democratic leader to the National Democrat. "If this broad view of all the candidates were pursued by all democratic leaders, state and national, many of the factional fights which injure the party in many states would cease, and it would be better for the democracy."

From the day Mr. Brice was elected United States senator, he began his work here for his constituents in several departments of the government. As an official of the pension bureau remarked in the senate gallery on the day he took the oath of office: "Senator Brice has already referred hundreds of pension cases to our bureau." Within a few days afterwards his work here was as thoroughly organized as that of any of his colleagues. He employs two stenographers and several clerks, and makes it a point to answer every letter promptly and attend to the request of every correspondent.

"I have known Mr. Brice for many years," said an Ohio visitor to the capital yesterday. "He has had a remarkable career. His father was a Presbyterian minister without wealth, and was only able to provide his son with the foundation for the thorough education he afterwards acquired. Almost from childhood Senator Brice was under the necessity of helping to earn his own living.

"He has successfully mastered financial operations of the greatest magnitude, and by his energy, integrity and utility to perform long and arduous labor is known to every great interest of the present time.

"When did he enter politics? Well, he had always attended the conventions of his party, and given liberally to its campaign funds, but he declined to be a candidate for office until he became senator. He was elected delegate-at-large to the St. Louis convention, and at the first meeting of the national committee thereafter was chosen chairman of the campaign committee. As to the work done by him, every democrat ought to be familiar with it. His colleagues on the national committee, recognizing these services and his fitness for the place, selected him as chairman at the first meeting held after the death of Senator Barnum."

Must Pull Together.

If the democracy doesn't hang together it will hang separately. Principles will unite it, not expediency; reforms will consolidate it, not hedging; manhood will weld it in unity, not machines; truths will be the making of it, not heresies; it cannot be merely as good as or not any worse than republicanism. It must be better. It cannot set about being or becoming so an hour too soon.—Brooklyn Eagle.

LITTLE TIN PUMPS.

Every Man Can Pump Gas for Himself.

The Gas Trustees' Short Satirical Session at Which the Gas Situation is Humorously Discussed—Mr. Voit Makes a Suggestion.

Eureka!

The gas trustees have at last solved the problem of gas supply.

A Canadian inventor has a little tin pump by which every man can do his own pumping and—oh, well, its just out of sight.

Think of it. A bright little pump attached to your stove and the members of the family can do the pumping act by turns. See?

The gas trustees held a brief but breezy session last evening. All were present and the chief matter to come before the board, next to the tin pumps, was the schedule of rates for tips.

The committee on claims presented bills amounting to $833, and the same were ordered paid.

On the recommendation of the same committee, Kerlin Bros. were paid $1,000 on account.

Secretary Brown announced receipts for first week of March as $10,629. There was, he said, in the treasury $12,191.

Mr. Backus—"Deducting what we pay out to-night we leave a balance of about $8,000?"

Secretary Brown—"Yes, sir."

Mr. Backus—"I am glad of it. I wish it was ten times that amount."

Dr. Jones—"Yes; we could then buy pumps."

Mr. Backus—"Pumps! pooh—better get into that high pressure territory, if we can."

President Parsons—"Perhaps it would be well to do both."

The committee on price of gas presented the following schedule for tips:

Jumbo (No. 6), Newmarket and Sunflower—20 cents for average of six hours; 2 cents over average.

Jumbo (No. 40), Newmarket (No. 2)—15 cents, six hours average; 2 cents for over average.

Clough, Niagara (No. 1)—10 cents, six hours' average.

Welsbach and Argand—8 cents for six hours' average.

The last is the old established rate, and will continue until the present contracts expire.

Mr. Backus and Dr. Jones thought the matter should be postponed until after election.

Mr. Voit favored enforcing the new schedule at once, and asked Mr. Backus why he favored a postponement.

Mr. Backus replied that he considered the rates very much too low.

Mr. Voit retorted that the increase was from three to seven times higher than heretofore, and it was better to have that than the present rates.

Dr. Jones moved that the further consideration of the report be postponed until April.

The motion was lost, and the report of the committee, after some further discussion, was adopted.

Manager Heston had nothing to report but that a special meeting of the mayor's committee would be held this evening at the council chamber.

There was some talk of going into executive session to hear the report of Gen. Greene on pumps, but Mr. Backus objecting to any star chamber session the matter was postponed.

There being nothing else before the board, the members indulged in a discussion of the gas situation generally.

The trenchant logic of Mr. Backus was scarcely a match for the satirical humor of Dr. Jones, and Mr. Parsons was right in with a flash of repartee now and then.

Mr. Voit wanted to know if something couldn't be done to give lower town consumers some more gas.

President Parsons suggested Farmer's tin pumps. If they didn't get gas through the pumps to warm them, then the pumping would keep them warm.

The tin pump, by the way, is a Canadian invention by which every consumer can have a little tin pump of his own attached to the mixer.

Dr. Jones didn't know but what it would be a good idea to do away with euchre parties and give pumping parties instead.

Mr. Parsons remarked that "J. N." might be secured to regulate the pressure.

The conversation drifted into politics, and Mr. Voit very earnestly suggested that the two retiring members step down and out, and that three members hereafter constitute the board.

GOLD AS A BASIS OF CIVILIZATION

To the Editor: Friends of the gold-unit standard complacently assure themselves that the old silver standard appertains to an inferior type of civilization. To restore silver to the position it always held until 20 years ago seems, to their complacencies, a step toward barbarism. Quoting the language of E. M. Burchard before the coinage committee—"We are told that if we remonetize silver it will cause the abandonment of the gold standard and degrade us as a people to the level of the effete nations of the old world, and the semi-barbarous ones of the new. According to this doctrine the man who pays a bill with a piece of gold is ennobled by the act, and approximates in character to the exalted level of the British banker; on the contrary, if he pay the same bill with a piece of silver he sinks by insensible degrees and approaches the true Chinese type of character." To what depths of national barbarism we have descended in using such money as bonds, bank bills and private checks—made of mere paper and ink!

In fact, however, it appears that the greater the civilization, the more active the commerce, the greater the diffusion of wealth becomes in any nation, the less the money metals, whether gold or silver are relied on to do business; and materials without any intrinsic value acquire the same money value as gold and silver by virtue both of statute law and commercial habit. If silver can be done away with as a basis, so can gold. If silver can be reduced 25 per cent. in value by legislation the same might have been done with gold. From 1862 to 1872 gold and silver coin were both practically and completely out of circulation in the United States. Yes, gold "fled to Europe." So did silver. Silver fled first. It had been fleeing to Europe for ever so many years before the war, because it was more highly rated for coinage there than here. But when both had "fled," the country went right along without them, and a period of unsurpassed and real prosperity showed conclusively that other forms of money produced equally good, if not better results. In the history of our country there never had been so great an advance in real wealth, nor so rapid an increase in the comforts of life among producers and laborers, nor so equitable a distribution of wealth as during the years from 1863 to 1873. They were years of special prosperity for the laboring classes and for active business and manufacturers. The high premium on gold and silver was a tariff of the most beneficent character. The next ten years was the period of return to gold and silver —of contraction—the money lenders' carnival. Demonetization of silver is a further means to increase the value of money, and of money only.

There is a constant bug-a-boo at the last over the fear that gold will flee the country. Why should we not desire to sell it quick and fast when it commands the premium it does now? If wheat were high and corn low abroad we would hurry the wheat to sale wherever it would sell best. The same of pork, or cotton, or bonds. Re-monetization of silver would raise silver and lower gold till they would come together at the old ratio. Whichever would then sell above that ratio ought to be exported for the simple reason that we could make a profit on its export. Every nation seeks to have and ought to have its own domestic currency. The small amounts necessary to balance accounts with other nations, ought not to be of a nature to embarrass all internal exchanges every time there is a foreign war or some upset among foreign bankers, or foreign governments.

Free coinage of silver is simply honest bi-metallism. Both parties have squarely resolved themselves in favor of bi-metallism in their national platforms for many years; and both stab it under the fifth rib by subterfuges; either by legislation that refuses equal mint right to the two metals, such as the republican party has passed, or by divisions as in the democratic party.

MORE DYNAMITE IN PARIS

Another Anarchist Scare in the Great City.

Fear Has Almost Caused a Panic.

The Lobeau Barracks Shattered, but Fortuuately None of the Inmates Were Injured.

Paris, March 15.—Fear of the anarchists has almost become a panic in view of the attempt, early this morning to blow up the Lobeaus barracks, formerly occupied by the republican guard and in the rear of the hotel De Ville.

If the dynamiters intended the destruction of the barracks they did not use a sufficient quantity of the explosive, as, while many windows were shattered, the damage was otherwise slight.

The barracks have for some time been used by municipal functionaries, for whom there is not accommodation in the hotel and many valuable records are stored there. It is believed that the dynamiters intended the explosion as a menace or warning that their next attempt might be upon the hotel De Ville itself.

The authorities have been all the morning endeavoring to ascertain the cause of the explosion, as there is not yet positive evidence of its character.

No doubt, however, is entertained that the explosion is the work of anarchists. A large crowd assembled at the building early this morning as soon as the facts became known through the city and the police had difficulty in making a way for those employed in the investigating the damage.

The police have been energetically engaged in ferreting out anarchists and in Passy and other places where the extremists have their haunts a number of domiciliary visits have been made.

No one was injured by the explosion in the Lobeau barracks.

AN ANCIENT TUNE.

It was a summer morning
All in the hush of dawn,
While dewdrops were adorning
As yet the velvet lawn:
And I while lily straying
Adown a leafy lane,
Heard unseen harpstrings playing
A tune of ancient Spain.

I could not quite recover
The music's vanished name,
Yet, conjured thus, a lover
And maid before me came.
He was a wooer sightly,
Her eyes were stars above
That beamed upon him brightly
The while he sang of love.

The strumming full and golden
That drifted from afar,
Became a ditty olden,
Played on a sweet guitar:
With cloak thrown o'er his shoulder,
And face uplifted pale,
He sang a song that told her
Of love that ne'er should fail.

He sang in tones of sorrow,
A soft and tenful strain
That he was off to-morrow
Away to the wars of Spain;
But when the wars were ended,
He plead in tenor grand,
He'd come by fame attended
And claim her lily hand.

Alas, for my romancing!
Alas, for knight and maid!
For through a gateway glancing
I saw the wight that played;
A beggar sad as any
That ever strolled the street,
Was harping for a penny
That ditty old and sweet.

O Blessed Music, smiling
E'en on a beggar's skill,
And through such means beguiling
My spirit where you will!
In dust the maid is lying,
Her knight long since was slain,
And from their graves came sighing
That tune of Ancient Spain.

THE SOCIOLOGISTS

Will be in Toledo To-morrow Afternoon

To Meet Those Who Have Light to Shed—Now is the Time to Trim Your Wicks.

To-morrow afternoon and evening, at the chapel of the First Congregational church, meetings will be held under the auspices of a committee composed of Dr. W. W. Williams, Geo. R. Haynes and S. C. Schenck for the purpose of throwing some light on the present social and industrial situation. Those interested are requested to be present and join in the informal discussion with three eminent sociologist, Washington Glassden, Roeliff Brinkerhoff and Sydney Strong, who were appointed by the Ohio association of Congregational churches to investigate the above mentioned matter.

The meetings will be held from 2 to 4:30 p. m. and 7 to 9:30 p. m. The following subjects will be taken up:

Do you think that the present relations of employers and laborers are satisfactory?

If not, can they be improved, and if so, in what manner?

Are the laboring classes suffering under any burdens or disabilities which can be removed by the action of government, or of a sound public opinion?

Do you think that any changes in the organization of industry are feasible—such, for example, as take the direction of industrial partnership?

Do you think that the nationalization of industry is practicable?

Do laboring men, as a class, complain of the churches; if so, what are their complaints?

A PROFITABLE TALK.

OUR SPECIAL REPORTER SECURES THE FACTS.

He Determined to Thoroughly Investigate a Subject that is Causing Much Comment, and Has Succeeded.

(N. Y. Sun.)

Two days ago one of the most prominent professional men in New York published a letter so outspoken, so unusual as to cause extensive talk and awaken much comment. Yesterday I interviewed the gentleman as to the contents of the letter, and he fully confirmed it in every respect. He not only did this but he also mentioned a number of unusual cases which had come under his observation in which little less than a miracle had been performed.

So important has the entire subject become that I determined to investigate it to the bottom, and accordingly called upon Mr. Albert G. Eaves, the prominent costumer at No. 63 East Twelfth street, the gentleman mentioned in the interview with the doctor yesterday. Mr. Eaves has made quite a name. A complete knowledge of history, an appreciation of art and reliability are essential in his profession.

"Mr. Eaves," I said, "I learn that your wife has had a most unusual experience; are you willing to describe it?"

The gentleman thought a moment and an expression of pleasure passed over his face. "When I think," he said, "of what my wife once passed through and the condition she is in to-day, I cannot but feel gratitude. Nearly three years ago she was at the point of death. You can understand how sick she was when I say she was totally blind and lay in a state of unconsciousness. Three doctors attended her and all agreed that her death was only a question of hours, perhaps minutes."

"May I asked what the doctors called her trouble?"

"Uraemia and puerperal convulsions, so you can imagine how badly she must have been. At last one doctor (it was Dr. R. A. Gunn) said that as she was still able to swallow one more attempt might be made, and a medicine was accordingly given her. She seemed to improve at once; in a few days her sight was restored. 'I have had a long, long sleep,' she said, upon recovering consciousness, and I am rejoiced to say that she was restored to perfect health wholly through the use of Warner's Safe Cure, which was the remedy we administered when she was past all consciousness."

I looked at Mr. Eaves as he said this. His face was beaming with satisfaction. He continued:

"The physicians told us, after my wife's recovery, that she could never endure childbirth, and yet we have a fine boy nearly a year old, and do not know what sickness is. I attribute it all to the wonderful power of Warner's Safe Cure. Why, my sister, who resides in Virginia, was, awhile ago, afflicted precisely as my wife had been. I at once advised her to use this same great remedy; it cured her promptly."

"You find that it is specially adapted for women, do you?" I inquired.

"By no means. I have known it to be wonderful in its power in the case of gentlemen to whom I have recommended it. I speak from my experience entirely, and you should not be so surprised that I am so firm a believer in this discovery, which has done so much for me."

I was not surprised. I saw by every word, by every look, that Mr. Eaves meant all he said. I had ample confirmation of Dr. Gunn's letter and interview, and I do not wonder that people who have seen such things, who have watched their dearest friends go down into the dark valley and be brought back into the light, should be both enthusiastic and grateful. I, myself, caught the spirit, and I shall be glad if the investigations I have made prove of profit to those who may read them.

IN A BLAZE OF GLORY

The Councilmen Desire to End Their Present Term.

A Resolution Sprung on the Park Question,

Which Goes Over—The Bridge Bonds—Auditor Walker's Statement—The Mayor's Veto—Miscellaneous Business.

The meeting of the board of councilmen last evening was a long one and exceedingly interesting, and it would appear as though the present council intended to end its term with great pyrotechnical display. At roll call all members were present except Messrs. Albrecht and Walker, and these gentlemen arrived later in the evening.

The first new business was an ordinance, presented by Mr. Neuendorf, amending the fire limit ordinance, section 291, so as to prohibit the erection of frame buildings and covering them with sheet iron and to prevent the removal of frame buildings from one part of the fire limits to another unless special permission is granted by the council. The ordinance passed two readings, and was referred to the committee on by-laws and ordinances.

President Hassenzahl introduced resolutions for turnpiking Albany street from Chase street to Ontario; to turnpike Grand street from Detroit avenue to the old canal bed, and to grade Erie street from Galena street to Sandusky street. These were referred to the street committee.

President Hassenzahl also presented a resolution requesting the legislature to pass an enabling act to allow the city of Toledo to issue $100,000 worth of bonds for fire engine houses and apparatus.

This resolution was accompanied by a petition from the principal manufacturers of the city asking for its passage.

Mr. Hassenzahl spoke briefly of the necessity for additional fire protection, as did also Mr. Pheatt.

Mr. Neuendorf was somewhat opposed to it and moved an amendment to make the amount of bonds $50,000. He afterwards withdrew this amendment and the original resolution was adopted.

Business on the schedule was then taken up and ordinances were passed, accepting plats of an extension of Mulberry street addition; of a sub-division of lot 841, Port Lawrence; of Russell & Throop's addition; of a sub-division of lots in Stocking's addition and of Wheeling addition.

Ordinances were also passed for additional electric lights on Scottwood avenue, Front street, Miami street, Starr avenue, Lawrence avenue, Robinwood avenue, Forrer street, Superior street, Bancroft street, Maplewood avenue, Webster street, Hicks street and Prescott street.

A resolution directing the clerk to advertise for proposals for bids for dredging the river from the mouth of Swan creek at Monroe street to Adams was adopted.

The resolution directing the city engineer to have a partition and padded cell built in the police matron's detention room at the police station was adopted.

From the street committee resolutions were adopted to grade the alley between Front and First streets from Bridge to Platt streets; to pave Twenty-second street from Monroe to Woodruff; to grade and pave East Broadway from Starr avenue to Woodville street; to advertise the petition to vacate part of Utah street, so as to make the street a uniform width of 60 feet from Fassett street to the Brown road, and directing the street commissioner to repair the planking on South street.

Resolutions were adopted for a new sidewalk on Field avenue, Bush street, South street, Daniels street, Ontario street, Ohio street, Banks street, Chicago street and Bridge street.

On leave Mr. Morganthaler presented a resolution, which was adopted, directing the city solicitor to prepare the proper papers for the purchase of the patrol barn site.

Mr. Gill, on leave, presented a resolution granting to Theobald Spitz the right to erect a scale in Millard avenue at Ironville. Adopted.

Mr. Neuendorf presented a resolution to notify the Consolidated Street Railway company that if they do not run cars on Lagrange street to Forest cemetery, as their franchise provides, the penalty of such neglect will be enforced. This was also adopted without discussion.

Another resolution from Mr. Neuendorf was adopted, directing the street commissioner to lower the culvert at Elm and George streets so as to properly drain the street.

From the sewer committee an ordinance was passed amending the manner of letting contracts for sewers, so that no allowance will be made for extra lumber.

The ordinance to construct a 15-inch pipe sewer in Ravine alley was tabled on motion of Mr. Taylor and an ordinance, presented by him, for a 2-foot brick sewer in the same place was passed.

Resolutions were adopted to build a sewer in alleys between Colburn and Sumner streets, and directing the clerk to advertise plans of drainage for part of the Seventh and Eighth wards.

Doesn't Want Parks.

Mr. Caldwell caused something of a sensation by a resolution which he presented calling upon the legislature to repeal the bill entitled "An act to create a board of park commissioners for the city of Toledo."

In speaking upon this resolution Mr. Caldwell stated that the plan to issue $500,000 of bonds for park purposes had been started and passed a vote of the people, by reason of the bequest of the late Judge Collins, who had left 35 acres of land in the Sixth ward to be used for park purposes. He claimed that now the park board intended to abandon this tract and spend all this money on the west side of the river. He was also of the opinion that in the present state of its finances Toledo can not afford to spend $500,000 for parks, and he therefore moved that the resolution be adopted.

In answer to questions from Mr. Pheatt, City Solicitor Read stated that if the legislature granted the request of that petition the board of park commissioners would be abolished entirely, and the care of parks would revert to the common council.

Mr. Morris was very strongly opposed to the resolution, saying: "This thing has been sprung upon us very suddenly, and now we are asked to pass upon it without any information on the matter, further than the statements of the gentleman from the Sixth, and it seems that he wants to abolish the park board simply for the reason that he is afraid they won't put a park on his side of the river. I am not informed of the intentions of the park board and this council is not. That board is composed of intelligent citizens of high standing in the community, and we should take no snap judgment upon them, at least their side should be heard. The majority of the people of this city voted in favor of this park work, and as we are their representatives we should abide by their judgment." He then moved that the resolution be referred to the committee on ways and means.

This motion was lost, ayes, Albrecht, Bay, Lee, Morganthaler, Morris, Pheatt, Hassenzahl, 7; noes, Caldwell, Coleman, Doner, Gill, Neuendorf, Rutherford, Schmuhl, Swain, Tanner, Taylor, 10.

Mr. Caldwell again spoke for the passage of his resolution on the grounds that the city can not afford this money for parks, and Mr. Neuendorf expressed the same opinion.

After a few more remarks, Mr. Taylor moved that the matter be laid over for two weeks and this resolution prevailed. Ayes—Albrecht, Bay, Lee, Morganthaler, Morris, Pheatt, Schmuhl, Taylor, Hassenzahl, 9; noes, Caldwell, Coleman, Doner, Gill, Neuendorf, Rutherford, Swain, Tanner, 8.

City Finances.

Auditor Walker's report on the condition of city finances, as printed in the Bee last evening, was presented and read, and it opened the eyes of some of the councilmen.

On motion of Mr. Pheatt, the matter was referred to the ways and means committee with instructions to prepare the proper legislation for relief, as suggested by the auditor.

The annual report of the harbor master was presented and placed on file.

Street Railway Veto.

The general street railway ordinance was returned by the mayor with paragraphs 7 and 11, referring to gates and conductors, vetoed. This was referred to the upper board.

A communication from the Warren-Scharf Asphalt Paving company was read, stating that if they should be awarded the contract for paving Fulton street, that they would take the bonds issued for such improvement at par and accrued interest. This was referred to the committee on ways and means.

Bridge Bonds.

The report of the ways and means committee meeting held last Thursday was read, and in accordance with the recommendations of the committee, a resolution was presented requesting the legislature to pass an enabling act to allow the city of Toledo to issue bonds to the amount of $75,000 for the purpose of building a bridge over Swan creek at Perry street.

Mr. Lee opposed this resolution on the grounds that the city can not afford the expenditure, and moved that the resolution be referred back to the committee.

Messrs. Coleman, Neuendorf, Caldwell and Morris all spoke against Mr. Lee's motion and in favor of the resolution, each one taking the grounds that a new bridge at this point is an absolute necessity.

Mr. Lee's motion was not seconded, and the original resolution was adopted, Mr. Lee alone voting against it.

Business from the board of aldermen was all adopted except a resolution rejecting the claim of Charles Vilhard for $1,000 damages. The city solicitor stated that Mr. Vilhard would settle for $250 and the matter was referred back to the committee.

On motion of Mr. Pheatt a resolution was adopted directing the city solicitor to communicate with the representatives from this district in the legislature and request them to push the legislation for issuing bonds for dredging Toledo harbor.

ENTERTAINMENTS.

Opening Night of The Fire Patrol.

O'Dowd's Neighbors—Donnelly & Girard To-Morrow Night—McLean and Prescott—Sol Smith Russell Coming.

Mark Murphy and a large number of comedians presented O'Dowd's Neighbors at Wheeler's opera house last evening before a fair sized audience. This alleged comedy is a conglomeration of attempted grand opera and horse play, interspersed with songs and dances. It contains but little merit in itself, but affords opportunity for the introduction of numerous excellent specialties which were well received. The attempts, however, to present airs from high class opera was a failure, and the performance would stand better without them.

Fire Patrol.

The Fire Patrol, a realistic melodrama, was presented at the People's last evening and will hold the boards at that theater for the remainder of the week. The play is a strong one, dealing with life both in New York city and in the Black Hills. Some of the situations are very exciting and they called forth liberal applause. The company is a good one and should play to big business.

The features of the performance are a fire patrol wagon and team and a very realistic gold stamp mill and ore crusher, besides a large amount of excellent special scenery.

Natural Gas.

The Donnelly & Girard comedians, announced to appear to-morrow night in "Natural Gas," are as welcome as the flowers in May. They always bring laughter with them, and while they remain, care will be thrown out of doors. The organization is this year stronger than it was before, and the amusing play has been changed so far as to admit many new songs, dances, and all the wit that half a dozen brainy men could concoct. Besides the particularly bright stars themselves, Mr. Cox has gathered together a company of artists seldom seen in one play. These are Miss May Howard, a star herself, who has left her own burlesque company to join "Natural Gas;" Miss Annie Mack-Berlein, who was for several seasons with Harrigan & Hart's company; Miss Kitty Kursal, the now celebrated California wing-dancer; the pretty Misses Jessie Gardner, Clara St. Maur, Ida Rock, Kitty Allen, Fanny and Sagar Midgley. Mr. George Murphy, the dutch comedian, is also a member of the company, and so are W. W. Black, late of the Henry E. Dixey company, Peter Mack, formerly of the Dockstader's minstrels, and Mr. Edward Lawrence. Mr. Fred Perkins, who first produced the "Mikado" in America, is the musical director, Chas. Wiegand, the representative, and Samuel Popular Cox, the manager. With such a company as this, headed by Mr. Donnelly and Mr. Girard, it is no wonder that "Natural Gas" brightens up any locality they are in, and that the theaters in which they play are packed to the doors.

McLean and Prescott.

R. D. McLean and Marie Prescott will present Cleopatra at Wheeler's opera house Friday evening and Saturday matinee and Spartacus Saturday night.

The Boston Journal speaks of them as follows:

"Two versions of the dramatized life of Cleopatra have been seen in Boston., Shakespeare's tragedy and Sardou's. Last night a third was tried at the Grand opera house by R. D. MacLean and Miss Marie Prescott. It was a dramatization of Rider Haggard's novel recently published. The leading roles were well taken, Miss Prescott giving considerable spirit to her Serpent of the old Nile, and Mr. MacLean, an actor of robust form and strong voice, acting his role with vigor.

Notes.

Sol Smith Russell, in his new play, Peaceful Valley, is announced to appear at Wheeler's shortly.

His Nibs, The Baron, will follow the Fire Patrol at the People's theater.

WHITECAPS UNDER ARREST.

A Big Sensation in an Indiana County.

A Minister and His Family and Relatives Behind the Bars on a Serious Charge.

English, Ind., March 15.—One of the most sensational arrests in the history of Crawford county is the wholesale one in which A. J. Scott, county commissioner and preacher, accompanied by his brother Lindsey, and their sons, George Scott, William A. Scott and William E. Scott, together with Albert Jones and William Condra, two more ministers of the gospel, were arrested yesterday upon the charge of taking Church Mattox from his home near Marengo one night last week with a rope around his neck, leading him two miles and threatening to hang him for stealing pork, which he bought from a neighbor.

Compositors in the United States printing office at Washington have often kicked against the rulings of a proof-reader who is known as "Dictionary" Brown. Sometimes they would point out to him that Webster's dictionary supported them. "Why, so it does," he would say, calmly. Then he would correct the dictionary with pen and ink.

AFTER THE MEAT TRUST.

Peculiar Moves Made by the Big Three.

Secretary White, of the Clearing House,

He Made His Escape, and it is Reported That the Books of the Concern Have Been Burned.

Chicago, March 15.—The Morning News says. More evidence is accumulating to show that the department of justice at Washington is after the "Big Three."

A thorough overhauling of the methods of the powerful meat combine is about to be begun and recent occurrences indicate that the combine is preparing things accordingly.

For years the combine has had its headquarters in Chicago. Its members are Armour & Co., of Chicago, the Armour Packing company, of Kansas City, the Cudahy Packing company, of Omaha, Nelson Morris & Co., of Chicago, and the house at St. Louis, and G. F. Swift & Co., of Chicago.

The combine has been in existence five years. It has perfected its system so that at present it has completely in its grasp the states of Indiana, Michigan, Ohio, Pennsylvania, New York, the District of Columbia and the New England states.

Its operation is as follows: A clearing house with offices in the Montauk block in this city receives daily returns of the sales of each member.

Each member is entitled to a certain per cent. of all the money paid in. The members pay 40 cents per 100 pounds of meat sold. At the end of each week the clearing house apportions the total payments among the members according to the percentage.

The clearing house is in the charge of William M. White. Under his watchful care the books have been kept.

The place that knew Mr. White, however, knows him no longer. He has vanished and even his name has disappeared from the directory of the building.

Last Saturday, it is said by knowing ones, Secretary White began to put out of the way all memoranda and books showing the history of the combine and its doings, so that it might avoid undue annoyance in the investigation about to be started by the federal department of justice.

"The fact is," reports an investigator, "the books are burned."

While the clouds are thickening over the heads of the big meat combination, and the wheels of the law are about to be set in motion against it, several of its members have gone elsewhere.

Nelson Morris lately went to California for his health. His condition, however, does not prevent his supervision of the construction of the new stockyards near San Francisco.

G. F. Swift is also out of the way of annoying investigating committees, as are most of the important members of the business households of Swift and Morris.

Some are thought to be in Florida, others in Mexico. There appears to have been an unusual hegira about the time the government was thinking of beginning an investigation.

SPEED OF A WRITER.

A rapid writer can write 30 words a minute. To do this he must draw his pen through the space of a rod—16 1-2 feet. In 40 minutes his pen travels a furlong, and in five hours and a third, a full mile.

He makes on an average 16 curves or turns of the pen for each word written.

Writing at the rate of 30 words per minute he must make eight curves to each second; in an hour 28,000; in five hours, 144,000; and in 300 days, working only five hours each day, he makes not less than 43,200,000 curves and turns of the pen!

The man that makes but 1,000,000 has done nothing remarkable; there are those that make four times that number. Here we have in the aggregate a mark 800 miles long to be traced on paper by a single writer in a year.

In making each letter of the alphabet we make from three to seven strokes of the pen—on an average three and one-half to four.—Notes and Queries.

Do you enjoy the good things of this world? Does a rich dinner distress you? Are you troubled with sleeplessness?

A prominent physician from Cincinnati says:

"My patient has just finished the last bottle of the genuine Johann Hoff's Malt Extract with marked improvement. I can cheerfully say it is all, and more than you claim for it, for in my patient's case of dyspepsia nothing would remain on her stomach; hence there was extreme debility, and she certainly could not have survived much longer.

"After taking the second bottle we could see quite an improvement. Her appetite became better, and she could retain food without distressing her. She feels—for the first time in six months that she has been in bed—that she will recover. It has certainly proved in her case a great boon. I can cheerfully indorse the genuine Johann Hoff's Malt Extract for all you claim, both in dyspepsia, anæmia, and kindred diseases." I will take great pleasure in recommending it to other practitioners and to my patients."

THE SCHOOL BOARD MEETS.

The Newsboys' Home Will Be Supplied with Text Books—Other Business.

The school board held a short session last evening.

Superintendent Compton stated that in the past the managers of the Newsboys' home had been supplied with a few text books from time to time, which he had tendered after submitting the matter to one or more members of the board. He was in receipt of a request for an unusually large number of books, and as the directors of the home looked to the board for assistance in this matter, he desired to submit it for consideration. He also stated that the home would need a teacher before long, and the board would be requested to supply one.

The matter of text books was referred to Superintendent Compton, with power to act.

The bill of Brown, Eager & Hull for text books, which was laid on the table some time ago, was called up by Dr. Beckwith, who was of the opinion that it should be disposed of before the new board is organized. No action was taken.

The pay roll, amounting to $12,610.66, was allowed.

The superintendent's monthly report of attendance showed 10,628 scholars enrolled, with an average daily attendance of 9,609. There were 607 cases of tardiness during the month.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, or otherwise. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

GRIFFIN FOR CONGRESS.

Mayor Emmick to be Left in the Cold.

Dairy and Food and Fish and Game Commission to be Consolidated—General Columbus Mention.

Columbus, March 15.—(Special)—Mr. Kean, of Carroll, yesterday afternoon introduced the bill to consolidate the dairy and food commission and the fish and game commission, the same having been published heretofore in the Bee.

It gives the dairy and food commissioner a salary of $1,500 per year, and the commissioner having charge of the fish and game $1,200 per year, and the three district commissioners $3 per day while in actual service. The clerk receives $600 per year. The state is divided into five districts as follows:

First—Hardin, Marion, Morrow, Knox, Logan, Union, Delaware, Champaign, Clarke, Madison, Franklin, Licking, Fayette, Greene, Pickaway, Fairfield and Perry.

Second—Williams, Fulton, Lucas, Ottawa, Defiance, Henry, Wood, Sandusky, Erie, Paulding, Putnam, Hancock, Seneca, Huron, Wyandot, Crawford, Van Wert, Allen, Mercer and Auglaize.

Third—Lorain, Cuyahoga, Geauga, Lake, Ashtabula, Medina, Summit, Portage, Trumbull, Richland, Ashland, Stark, Wayne, Mahoning, Columbiana, Carroll, Harrison and Jefferson.

Fourth—Darke, Shelby, Miami, Preble, Montgomery, Butler, Warren, Clinton, Hamilton, Clermont, Highland, Ross, Pike, Adams and Scioto.

Fifth—Holmes, Tuscarawas, Coshocton, Muskingum, Guernsey, Belmont, Morgan, Noble, Monroe, Hocking, Athens, Washington, Vinton, Jackson, Meigs, Gallia and Lawrence.

This bill if it becomes a law will add nearly 10,000 per year to the expense of running the different state departments.

Law Bills.

House bill by Mr. Fisher, of Preble, providing that in cases at law exceptions to decisions, if taken, must be made within forty days after the decision is made, and further providing that exceptions as to the admission of evidence may be taken as well as exceptions to the system of evidence; also that bills of exceptions may be made forty days after the decision of the court, instead of forty days from the beginning of the ensuing term; also that all orders pertaining to such proceedings shall be entered on the journal of the court, and that extensions of time, if extended, must be indorsed on the bill of exceptions, passed the senate this morning.

On the Governor's Staff.

Gov. McKinley has appointed Frank M. Joyce, of Cincinnati, a member of his staff vice Col. James, resigned and elected warden of the penitentiary.

Supreme Court.

An extension of time was granted to print record by supreme court in case of China Electric Light company v Mattie Duebler, administratrix.

Supreme court this morning gave judgment of ouster in case of the attorney-general v the Mutual Fire Insurance company, of Shelby. This will cause all mutual companies to close up business unless they more fully comply with the law.

Judgment was affirmed in the case of David W. Canfield v David T. Clark, error to the circuit court of Lucas county.

Australian Ballot Law.

The joint committee of the senate and house which is preparing amendments to the Australian ballot law will have a meeting to-night.

This committee has a big undertaking on hand and has not been able to make haste.

It will recommend a number of amendments to the law, such as have been suggested by the first trial of it, and a bill will be reported to both houses as soon as possible. It will exempt from the operation of the law, at the April election, the elections of township and hamlet officers and of village officers in villages that have not been divided into wards. In all cities the elections will be held under the provisions and requirements of the law. A permanent exemption of the places named may be looked for.

New Judicial Bill.

Senator Nichols is at work on a bill which changes the source of compensation of the common pleas judges. At present the judges are paid by the state, but the senator believes that it would be better were each sub-division to be required to pay its own judge.

Griffin for Congress.

The latest piece of political gossip floating around the halls of legislation is that Representative Griffin may be induced to become a candidate for congress, instead of a candidate for secretary of state. If this is true some of the fellows at Toledo who have their eyes set on Washington must hurry up and get their wheels well oiled so that their rolling along will be easy, for Griffin may jolt some of them out of the wagon.

Mayor Emmick should keep his eye on the member from Lucas.

Will It Work Both Ways.

The Lewellynn bill which makes it punishable by $500 and one year's imprisonment for employer to prevent employes from joining labor organizations, or to discharge them for holding membership therein, comes up in the house this afternoon.

Mr. McCoy will offer an amendment applying the same punishment to labor organizations that interfere with workmen that do not belong to such organizations, and there is prospect of a lively time when the bill comes up.

Against Blackmailing Collectors.

The house indulged in considerable discussion to-day on the Iden bill, which provides that no resident of the state shall sell, transfer, assign or give away a claim for debt against any citizen of the state for the purpose of having the same collected by proceedings in attachment or other wise in the courts of other states.

It has been the practice of merchants in this state to send their bills to the Virginias for collection. Its passage was bitterly opposed by Speaker Pro Tem. Clapp and other republicans and they defeated it.

Columbus Ripper.

The house committee having in charge the Daugherty bill reorganizing the government of Columbus is having a hard time getting together.

It is divided on the question whether to give the appointing of the board of public affairs to Probate Judge Haggerty, or whether to divide the city into five districts and have each district elect a member of the board.

The republicans of the city are divided and thus adds to the perplexities of the committee.

There is a demand on all sides, however, that some sort of a bill be passed at once and Mr. Daugherty, the author of the pension measure, is trying to get a majority of the committee to report the bill back at once, recommending a division of the city into districts and the election of the board of public affairs.

Dayton Ripper.

Messrs. Lewis, Corwin and other Daytonians are in Columbus to-day interviewing members of the senate.

They are asking that the Allaman bill reorganizing the government of Dayton be passed at once, and there is a prospect that it may get through to-morrow.

There will be no amendments save some to correct one or two clerical errors.

Notes.

A bill to execute murderers by electricity will soon be introduced in the Ohio legislature.

Welch's bill authorizing a bounty of twenty-five cents for hawks killed to be paid out of county treasury, was defeated in the senate this morning.

Blackburn's bill authorizing county comissioners to vacate roads that have been virtually abandoned for a period of seven years has passed the senate.

Governor McKinley yesterday sent in the name of Charles D. Martin, of Fairfield county, as trustee of the Columbus Central insane asylum. It was referred to the committee on benevolent institutions.

Senator Geyer introduced a bill yesterday afternoon authorizing Lima to issue $150,000 in bonds to encourage manufacturing, if approved by a two-third vote of the people. This is a bill similar to the one introduced by Mr. Cunningham in the house and was indefinitely postponed.

Senator Phillips yesterday afternoon introduced a bill to amend section 6188 so as to allow administrators' attorneys to take fees out of the estate involved in cases where wills are contested.

Senator McMaken offered a joint resolution yesterday in the senate longer than the ten commandments, in which he recites the great benefit to be derived by the people of the United States, and the great cost to Chicago, for the success of the Columbian exposition, and requests the members of congress and senators from Ohio to vote for the bill appropriating $5,000,000 in addition to the amount already appropriated to promote the interests of the exposition.

Mr. Sombhard, of Union, offered for adoption yesterday afternoon a resolution instructing the senators and representatives in congress to vote against the Springer bill placing wool on the free list, and authorizes the governor to send a copy to each senator and representative from Ohio. It went over under the rule.

The farmers in the house met last night and resolved to report back the Carney bill providing for a bounty on beet and other sugar yielding plants, with a recommendation that it pass.

COMMISSIONER KIRKBY.

The Infirmary Manager Will Have a New Title,

Which It Is Said Governor McKinley Will Confer on Him on the 20th—He Is First in the Race Just Now.

Information comes to-day from Columbus that Gov. McKinley has decided to make the appointment of state commissioner of railroads on the 20th.

Along with this bit of news comes the announcement that Mr. William Kirkby, superintendent of the infirmary in this city, will be appointed.

William, himself, feels so confident that he has sent down to Columbus for the size of Doc Norton's shoes and hat. The shoes may be all right, but Doc's hat won't fit Bill.

If the statement is straight, the genial William is to be congratulated.

THE IMMACULATE CONCEPTION DRAMATIC CLUB.

A grand dramatic entertainment will be given in Eversman's hall by the above popular club, Wednesday and Thursday evenings of this week. The play, entitled "Eileen Oge," is a true personification of the warm, generous and trustful character of the Irish race. It has commanded the favorable criticism of play-goers wherever presented, and the people of Toledo will have an opportunity of witnessing this beautiful drama in Eversman's hall to-morrow and Thursday evenings by home talent. The club has been for months rehearsing this play, and it is to be hoped that they will be greeted on both evenings by a large and appreciative audience. Those who have 25c tickets can have them exchanged for reserved tickets at Eversman's.

Charles A. Thatcher, a rising Toledo attorney, was in the city to-day taking depositions in the case of Lenora Calvin vs. the T. & O. C. railroad company, which was recently filed in Lucas county. Suit was brought to recover $10,000 damage because of the death of her husband, who was killed last year between Granville and the Pan Handle crossing. He was caught while climbing up the side of the car by one of the posts from which the bridge warning was hung.—Bucyrus Forum.

EVERY FAMILY

Should be provided with Ayer's Pills. No other aperient is in such general demand or so highly recommended by the profession. Mild but thorough in operation, these pills are the best of all remedies for constipation, biliousness, heartburn, indigestion, flatulency, loss of appetite, liver complaint, and sick headache. They break up colds, fevers, and malaria, relieve rheumatism and neuralgia, and are indispensable to travelers, either by land or sea. Sugar-coated and compounded of the purest vegetable cathartics, they may be taken with impunity by old and young. Physicians recommend these pills in preference to any other. H. W. Hersh, Judsonia, Ark., says: "In 1853, by the advice of a friend, I began the use of Ayer's Pills as a remedy for biliousness, constipation, high fevers, and colds. They served me better than anything I had previously tried, and I have used them in attacks of that sort ever since."

THOSE MISSING WILLS.

The Mystery in the Bronson Case Deepens.

The Documents Were Supposed to be in Mr. Bronson's Safe, But Are Now Nowhere to be Found.

The particulars of the missing wills of the late Calvin Bronson, as published in the Bee yesterday, has caused a great deal of comment, and it is the subject of general conversation in legal circles.

The lost wills, as stated yesterday, were supposed to be in Mr. Bronson's safe. He told Mr. I. E. Knisely a short time prior to his death that the old wills would be to the fore in the event of a contest which he always seemed to fear.

The last and only will now to be found was secured by Col. Neubert in the safe deposit vault of the Union Savings bank.

"A short time after Mr. Bronson's death," Mr. Leander Burdick, of the Union Savings bank, said to a Bee this morning, "Mr. Roswell Messenger and Miss Warn came to the bank with Mr. Bronson's keys and asked leave to open Mr. Bronson's box. I told them Mr. Bronson had no deputy, and no one but his duly and regularly appointed executor could have access to the box. They went away and a few days later returned with Col. Neubert. Mr. Neubert presented his credentials as trustee, and I allowed him to open the box. The last will made, and the only one I know anything of, was found in the box."

It appears now that Col. Neubert did not take possession of Mr. Bronson's office or safe. On the day of the funeral he was told that he should get possession of the safe. He said he would do so, but a day or so later stated that he had been unable to obtain possession of the keys.

A misunderstanding seems to exist in the minds of some as to where the old wills were deposited. They were believed to be in Mr. Bronson's safe, and not at the Union Savings bank. It is the general belief that he did not destroy the documents, as he frequently made the statement that they might come in useful some day.

HAVE YOU THE GRIPPE?

Many People Have It and Do No Know It.—How to Recognize the Symptoms and How to Treat Them.

Hundreds of people have the Grippe who do not know it. Not necessarily the final stages, but the first stages. They feel pains in the head, and a bad taste in the mouth, get tired and despondent, have chilly sensations, limbs and muscles ache. In some cases these things are overlooked. In most cases perhaps they are considered simply a slight cold. In nearly every case they indicate the coming of Grippe.

There is but one thing to do when these symptoms appear, and that is to take prompt and vigorous measures, to fortify nature to repel the enemy. A little well directed effort at just the right time will accomplish very much more than labored efforts afterwards. There is but one thing to be done, and that is to use a pure stimulant, something that will promptly arrest, and in no way injure, something endorsed by scientists, recommended by physicians, and popular because so efficient—Duffy's Pure Malt Whiskey. Two years ago, and last year when the Grippe was raging, this was the standard remedy used, and recommended by the profession. It did more to prevent the Grippe than all other known or recommended remedies. It preserved many people in health who would otherwise have been grievously sick, perhaps even worse. It is as efficient to-day as ever. It should be borne in mind that other so-called whiskies may not be so efficient, and if any dealer asserts that such whiskies are the same, distrust him at once. There is but one medicinal whiskey and that is Duffy's Pure Malt.

Where Science ends and Common Sense should rule. Persons of sedentary habits are liable to indigestion or dyspepsia. These, in turn, will bring on nervous disorders, kidney complaints, constipation, etc. This is especially the case with merchants, students and scientists. They will give you the exact dimensions of Jupiter, the distance from Saturn to the sun, to a foot, but they cannot or will not tell themselves what will cure this train of disorders.

For ailments resulting from sedentary habits—inactivity of the liver, habitual constipation, etc.—the entire medical fraternity of Europe and America almost unanimously recommend the genuine Carlsbad Sprudel Salt and the Waters of Carlsbad.

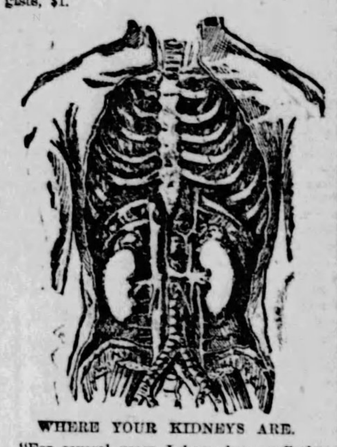
OUR KIDNEYS IN SPRING.

All Ought to Know These Facts.

Section of Kidney.

Our kidneys act like the drains under cities, to collect and carry away waste or poisonous materials from the body. The nerves which control them often become weakened, irritated, diseased. Then the function is imperfectly performed, uric acid and other poisonous substances are retained, causing pain and weakness in back, high colored excretion with sediment, constant desire to void, headache, coated tongue, bad taste, thirst, biliousness, constipation, cold feet, poor circulation, malaria, extreme nervousness and weak and tired feelings. The Grip has left thousands with weak and diseased kidneys, which should not be neglected. These conditions are especially dangerous and must be cured now OR ALARMING KIDNEY AND LIVER DISEASE WILL SURELY FOLLOW. The spring is the worst time for kidney complaints. Everybody who has the slightest touch of kidney disease should, especially in the spring, take Dr. Greene's Nervura, which not only perfectly regulates the kidneys, liver, stomach and bowels, but gives strength and vitality to blood and nerves. This pure, vegetable, harmless remedy is sold by druggists, $1.



WHERE YOUR KIDNEYS ARE.

"For several years I have been suffering from a complication of malaria, kidney and liver complaints and dyspepsia in its worst form.

"I began taking Dr. Greene's Nervura. I have used six bottles, and now feel entirely relieved of all my former complaints, and do cheerfully recommend it to anyone who may be afflicted with any of the above troubles.

CITY NEWS.

Police commissioners to-morrow night.

Boxing exhibition to-morrow night at the Maumee club rooms.

Toledo Cadets' reception occurs to-morrow night at Memorial hall.

Election board officials are busy preparing for the spring election.

A well-attended masquerade party was given at Clark's hall last night.

Noon-day meetings at Trinity church are largely attended, and growing in interest.

E. Arnold, of the Eighth ward, is a candidate for councilman on the republican ticket.

Custar division met last night at the Pythian Castle and elected some new members.

Councilmen hold one more session of the present board before giving up to the new officials.

Hoofland's Bitters cure Marasmus.

Open streets cars were flying about the city to-day. It was a little breezy, but there was little complaint.

Ask for Seyfang's "New Process" bread

The ladies interested in social purity are holding a meeting at Mrs. Vincent Hamilton's this afternoon.

Bob French is compiling a K. P. city directory, which will contain much interesting information to the membership.

A musical and literary entertainment will be given at the Albany Street M. E. church, North Toledo, to-morrow evening by the members of the Sunday school.

A regular meeting of the Union Veterans' Union will be held this evening at Grand Army hall, in the Pythian Castle, at which much important business is to be considered.

Russell H. Conwell lectures this evening at Wheeler's in the Stanley case. The house is already well taken up, every seat on the lower floor having been secured last week.

"Glimpses of the Orient" is the subject of Rev. Dr. Quigley's lecture at Wheeler's on Thursday night. It will be a continuation of the lecture delivered a few Sundays since at the same place.

Mammoth moving vans, with experienced help. Phone 1110. A. B. Cole.

Eileen Oge will be presented by the Immaculate Conception Dramatic club at Eversman's hall Wednesday and Thursday evenings. A very fine entertainment is expected, since the members have been rehearsing for some time.

Next Saturday will be a lively day in politics, as the caucuses of the democratic and republican parties will be held. The democratic primaries continue from 4 to 7 p. m., and every democrat is requested to express his preference at the polls.

Programs are being circulated in the city for the nineteenth national conference of charities and correction, which is to be held at Denver, Col., June 23-29. Dr. H. A. Tobey, of Toledo, is a member of the committee on care and classification of the insane.

Among the many candidates suggested for constables on the democratic city ticket is the name of Mr. Richard Jackson, of the First ward. "Dick," as he is familiarly known, is an old Toledo boy, has always done his share of work for the party, and would be an intelligent and painstaking constable. In the making up of the ticket, Mr. Jackson's friends would be gratified to find his name among the lucky ones, believing that there will be no doubt of his election.

An illustration of the curious adaptability of the electric motor is to be seen in the new use that is made of it on board the United States monitor Miantonomoh. The smoke from the guns is a great nuisance in the turrets of a modern fighting ship, but on this vessel it is to be got rid of by three little electric fans, which are so placed as to blow the smoke out of the turret. They can be started and stopped at will, and aid in ventilating a place that is not too airy even at the best of times.

Fit Out Your Boys for Spring!

A LUCKY PURCHASE.
While in New York last week we closed out (in conjunction with the Mabley syndicate) more than
FIVE THOUSAND
BOYS' SUITS
From one of the best manufacturers there. We shall offer the citizens choice of these suits at $3.00 each.
Three Dollars a Suit!
You will find them excellent values and they should interest every mother who has a son to care for or a boy to clothe. Sizes from 4 to 14 years.
MOCKETT THE CLOTHIER

Since Mr. Mockett's return from the New York and Boston markets, we have been busy receiving new goods. Invoice after invoice follows each other in quick succession, and we are now in a position to show to our customers some of the choicest wearing apparel that's manufactured for this season's wear. Mr. Mockett is the only clothing merchant in Toledo who regularly visits the markets two or three times a season, therefore, it is but natural that you should find a newer and better selected stock in his store than any other in this city.

A FEW OF THE SEASON'S NOVELTIES!
Spring Overcoats, 50 different styles, from $7.50 to $10, $15 and $20.
Black Cheviot Frock and Sack Suits, flat binding, from $10 to $15 and $20.
Large assortment of Wood Brown Cheviots, $10 to $15 Suit. Same as tailors get $25 and $30 for.
Globe, Simoni and Hockaman Worsted Suits for $20. Same cloths and patterns as tailors get $35 and $40.

We could mention hundreds of articles of interest, but 'twould cost too much for space. But we can honestly say that we can show you an excellent and select assortment of the choicest fabrics, made ready to wear, cut and made in the best style (infinitely better) than you can have made to your order in the average tailor-shop of Toledo, and you will find that our prices are not more than one-half what the tailors ask. Should you select any suit from our stock that we cannot give you a perfect fit in, we will make one to your measure without any extra charge.
